IT ESCLUSIONE DI RESPONSABILITÀ

I prodotti Ariete, Ari ed Harri's, pur essendo di altissima qualità, non possono prevenire danni in caso di impatto. Prima di utilizzare i prodotti Ariete, Ari ed Harri's Vi preghiamo di leggere attentamente le istruzioni fornite per l'uso ed il montaggio. La Sandro Mentasti Srl compie ogni sforzo al fine di assicurare che le informazioni contenute nel presente catalogo siano corrette e dettagliate, nonché di facile comprensione, ma declina ogni responsabilità per eventuali errori di interpretazione ed in caso di dubbi, anche in merito al montaggio e/o alle condizioni per l'uso, Vi invita a contattarla all'indirizzo e-mail: info@ariete.com. In ogni caso, è esclusa la responsabilità della Sandro Mentasti Srl per eventuali danni a cose e/o persone occorsi durante l'uso dei prodotti nonché per eventuali danni derivanti da usi non corretti, speciali, eccezionali e/o comunque diversi da quelli cui il prodotto era stato originariamente destinato, da errori di montaggio e/o di installazione.

La Sandro Mentasti Srl realizza direttamente i propri prodotti, commercializzandoli con i marchi ARIETE, ARI ed HARRI'S. L'utilizzo, all'interno dei cataloghi, di eventuali codici originali di prodotti recanti marchi diversi da quelli summenzionati è da intendersi meramente descrittivo, così come l'eventuale utilizzo di marchi e/o denominazioni di altre case produttrici (a titolo esemplificativo, PIAGGIO®, HONDA®, YAMAHA®, SUZUKI®, KAWASAKI®, BMW®, VESPA®, KYMCO®) cui la Sandro Mentasti Srl non è in alcun modo collegata. Tale utilizzo ha il solo fine di descrivere l'accessorio e/o il ricambio.

UK EXCLUSION OF LIABILITY

Ariete, ARI and Harri's products, while being of very high quality, may be subject to damage in case of impact or accident. Before using Ariete, Ari or Harri's products, please carefully read the instructions for use and installation. Sandro Mentasti Srl makes every effort to ensure that the information contained in this catalogue is correct and easy to understand, with some information specific to individual products, but accepts no responsibility for any misinterpretation. If you should require any further information, regarding assembly and/or conditions for use, please contact Sandro Mentasti Srl by e-mail at info@ariete.com. In any event, Sandro Mentasti Srl is not liable for any damage to property and/or persons caused during the use of its products, and neither for any damage resulting from incorrect use and/or use other than that for which the product was originally intended, and damage resulting from assembly errors and/or incorrect installation.

Sandro Mentasti Srl manufactures its products directly, and markets them with the ARIETE, ARI and HARRI'S brands. The use contained within the catalogues of any original product codes bearing brands other than those mentioned above is intended as merely descriptive, as well as the possible use of trademarks and / or names of other manufacturers (for example, PIAGGIO®, HONDA®, YAMAHA®, SUZUKI®, KAWASAKI®, BMW®, VESPA®, KYMCO®) which Sandro Mentasti Srl is in no way connected. The only purpose of this use is to describe the accessory and/or the part.

FR CLAUSE DE NON RESPONSABILITÉ

Les produits Ariete, Ari et Harri's, bien que de très haute qualité, ne peuvent pas éviter des dommages en cas d'impact. Avant toute utilisation d'un produit Ariete, Ari et Harri's nous vous demandons de bien vouloir lire attentivement les notices fournies pour l'utilisation et le montage. Sandro Mentasti Srl met tout en œuvre pour assurer que les informations contenues dans le présent catalogue soient correctes et détaillées, faciles à comprendre, mais la Société décline toute responsabilité pour d'éventuels erreurs d'interprétation et en cas de doutes, soit sur le montage que sur les conditions d'utilisation, vous êtes invités à la contacter l'adresse e-mail: info@ariete.com. En tout cas, toute responsabilité de la part de la Société Sandro Mentasti Srl est exclue pour éventuels dommages corporels et/ou matériels produits lors de l'utilisation de ses produits, ainsi que tout dommage dérivant d'une utilisation inappropriée, spéciale, exceptionnelle et/ou de toute manière différente de celle à laquelle le produit avait été initialement destiné, ou provoqué par des erreurs de montage et/ou d'installation.

La Société Sandro Mentasti Srl réalise directement tous les produits qu'elle commercialise avec les marques ARIETE, ARI et HARRI'S. L'utilisation, dans les catalogues, d'éventuels codes originaux de produits avec des marques différentes, se veut être purement descriptif. De même pour l'utilisation de marques et/ou dénominations d'autres fabricants (entre autres, par exemple, PIAGGIO®, HONDA®, YAMAHA®, SUZUKI®, KAWASAKI®, BMW®, VESPA®, KYMCO®) avec qui la Société Sandro Mentasti Srl n'a aucun lien. Ces marques/dénominations sont utilisées uniquement pour décrire l'accessoire et/ou la pièce détachée.

ES EXCLUSIÓN DE RESPONSABILIDAD

Los productos Ariete, Ari y Harri's, incluso siendo de gran calidad, no pueden prevenir daños en caso de impacto. Antes de utilizar los productos Ariete, Ari y Harri's les rogamos que lean con atención las instrucciones de uso y montaje. La Sandro Mentasti Srl hace todo lo posible para asegurar que la información que contiene el presente catálogo sea correcta y detallada, así como de fácil comprensión, pero declina toda responsabilidad sobre posibles errores de interpretación; y, en caso de que tengan dudas sobre el montaje y/o condiciones de uso, les invita a ponerse en contacto con la dirección de correo electrónico: info@ariete.com. En cualquier caso, se excluye la responsabilidad de la empresa Sandro Mentasti Srl sobre posibles daños a cosas y/o personas que pudieran ocurrir durante la utilización de los productos, así como sobre posibles daños derivados de una utilización incorrecta, especial o excepcional y/o, en cualquier caso, diferente del uso para el que el producto ha sido, en origen, destinado; tanto por errores de montaje como de instalación.

La empresa Sandro Mentasti Srl realiza directamente sus propios productos y los comercializa con la marca ARIETE, ARI & HARRI'S. La mención en el catálogo de posibles códigos originales de productos que lleven marcas y/o denominaciones de otras casas productoras distintas a las mencionadas, son meramente descriptivos, así como una posible mención de otras casas productoras (a título de ejemplo, PIAGGIO®, HONDA®, YAMAHA®, SUZUKI®, KAWASAKI®, BMW®, VESPA®, KYMCO®) con las que la empresa Sandro Mentasti Srl no tiene ningún tipo de vínculo. Tal uso tiene como única finalidad describir el accesorio y/o recambio.

IT CERTIFICAZIONI

La nostra Qualità è frutto di 70 anni di lavoro

La qualità nasce e si estende in un sistema di gestione che integra controlli dei prodotti e dei processi.

Il pieno controllo di tutte le fasi costruttive dei prodotti ci permette di assicurare al cliente il rispetto dei requisiti richiesti, ma ciò che più conta, ci permette di offrire la garanzia di un servizio sempre impeccabile.

Sandro Mentasti Srl ha ottenuto la certificazione del proprio Sistema di Gestione per la Qualità e Sicurezza con l'Ente di Certificazione **TUV THURINGEN e.V.**

UK CERTIFICATIONS

Our Quality is the result of 70 years of work

The quality starts and progresses into a management system that integrates checks on products and processes.

The full control over all the manufacturing steps allows us to fully comply with the Client's requirements, but more importantly, enables us to offer the guarantee of a flawless service, at any moment.

Sandro Mentasti Srl has received the certification issued by the **TUV THURINGEN e.V** Certification Body, for its own Quality and Safety Management System.

FR CERTIFICATIONS

Notre Qualité est le fruit de 70 ans de travail

La qualité naît et se développe dans un système de gestion qui intègre le contrôle des produits et des processus.

Le monitoring général de toutes les phases de fabrication des produits, nous permet de garantir au client le respect des critères requis, mais surtout cela nous permet d'offrir la garantie d'un service toujours impeccable.

Sandro Mentasti Srl a obtenu la certification pour son propre Système de Gestion pour la Qualité et la Sécurité avec l'Organisme de Certification **TUV THURINGEN e.V.**

ES CERTIFICACIONES

Nuestra Calidad es el resultado de 70 años de trabajo

La calidad nace y se extiende en un sistema de gestión que integra los controles de productos y de procesos.

El control total de todas las fases de fabricación de los productos nos permite asegurar que el cliente cumpla con los requisitos, pero lo más importante es que nos permite ofrecer la garantía de un servicio siempre impecable.

Sandro Mentasti Srl ha obtenido la certificación de su Sistema de Gestión de Calidad y Seguridad con **TUV THURINGEN e.V.**

#I_AM_ARIETE_ORIGINAL

IT | I prodotti ARIETE® originali garantiscono il rispetto degli standard di qualità e salvaguardia dell'Ambiente stabiliti dal severo disciplinare della Sandro Mentasti Srl.

Ultimamente circolano nei mercati mondiali delle imitazioni dei nostri prodotti Ariete®, HARRI'S®, ARI® the original fork oil seals.

Queste imitazioni di basso livello qualitativo rappresentano un rischio per la sicurezza dell'Utilizzatore sia in strada che in Off-Road.

ATTENZIONE NON COMPERATE PRODOTTI CONTRAFFATTI e NON ORIGINALI

Per scoprire se il prodotto acquistato è originale Ariete® oppure è contraffatto applichiamo sulle confezioni originali un ologramma che permette di controllarne l'autenticità con pochi passi.

UK | Be assured that the original ARIETE® products guarantee compliance with the highest measures of quality and Environmental protection set by the strict standards of Sandro Mentasti Srl.

Recently, many imitations of our Ariete® products have been put on the market, also imitations of our HARRI'S® and ARI®-the original fork oil seals.

These low-quality models pose a risk to the user's safety both on the road and off-road.

WARNING: DO NOT BUY COUNTERFEIT and NON-ORIGINAL PRODUCTS

In order to find out whether the purchased item is original by Ariete® or is counterfeit, we apply a hologram to the original packaging to check its authenticity in a few easy steps.

FR | Les produits ARIETE® originaux garantissent le respect des standards de qualité et de sauvegarde de l'Environnement fixés par la stricte réglementation adoptée par la Société Sandro Mentasti Srl. En ce moment, on trouve sur les marchés du monde entier des imitations de nos produits Ariete®, HARRI'S®, ARI® the original fork oil seals.

Ces imitations de second ordre au niveau qualitatif représentent un risque pour la sécurité des Utilisateurs soit dans les rues que dans le Off-Road.

ATTENTION A' NE PAS ACHETER DES PRODUITS CONTREFAITS ET NON ORIGINAUX

Lorsque vous achetez un produit Ariete®, pour découvrir s'il s'agit d'un produit original ou d'une contrefaçon il suffit de vérifier s'il porte l'hologramme que nous appliquons sur les confections originales qui permet d'en vérifier l'authenticité en quelques clics.

ES | Los productos ARIETE® originales garantizan el cumplimiento de los estrictos estándares de calidad y medioambientales de Sandro Mentasti Srl.

En algunos mercados están circulando imitaciones de nuestras marcas registradas Ariete®, HARRI'S®, ARI® the original fork oil seals.

Estas imitaciones de baja calidad representan un riesgo para la seguridad del usuario tanto en carretera como Off-Road.

ADVERTENCIA: NO USE PRODUCTOS NO ORIGINALES O FALSIFICADOS

Para saber si un producto comprado Ariete® es original o falso, incluimos un holograma en el embalaje original para verificar su autenticidad en unos pocos pasos.

ABBIAMO UN CUORE VERDE

Sandro Mentasti Environmental Protection Program. Varato nel 2007 questo progetto nasce dalla volontà di promuovere ed applicare una cultura interna aziendale più sensibile all'ambiente basata sulla compatibilità tra la nostra industria e la salvaguardia ambientale. Obiettivo dell'impegno la riduzione dei consumi energetici nella produzione, l'eliminazione di materiali tossici ed un adeguato sviluppo della ricerca e dell'innovazione tecnologica orientati al rispetto dell'ambiente naturale. Tutti i nostri articoli commercializzati con i marchi Ariete, Harri's ed ARI sono l'espressione di questa nostra filosofia di dialogo tra ecologia ed industria.

Risultati concreti sono già stati raggiunti nel risparmio energetico distribuito in azienda tramite trasformatori ecologicamente certificati, nella gestione dei rifiuti speciali smaltiti in ottemperanza alle norme di legge da ditte specializzate ed omologate, nella gestione della raccolta differenziata dei rifiuti, nella drastica riduzione del consumo di acqua per mezzo di un impianto a circuito chiuso per il termo-condizionamento di presse ed attrezzature, nell'ottimizzazione dell'impianto di riscaldamento dei reparti e degli uffici con nuove caldaie termiche a condensazione con emissioni quasi nulle nell'atmosfera, nel notevole risparmio della carta per uso interno (modulistica, fotocopie, stampe di e-mail etc.), nell'adozione di imballi e packaging dei prodotti ecologicamente classificati, cataloghi stampati rigorosamente su carta riciclata "certificata".

WE HAVE A GREEN HEART

Sandro Mentasti Environmental Protection Program. This project, founded in 2007, is born out of the desire to promote and apply a more environmentally friendly business culture based on the compatibility between our industry and environmental protection. The commitment aims at reducing energy consumption in production, at eliminating toxic materials, and looks at a proper development of research and technological innovation with the goal of respecting the natural environment. All of our products marketed with Ariete, Harri's and ARI brands are the expression of our philosophy of dialogue between ecology and industry. Concrete results have already been achieved in the company's energy saving through ecologically certified electrical transformers, in the management of special waste disposed of in compliance with law by specialized and homologated companies, in the management of recycling, in the drastic reduction in water consumption by means of a closed loop system for the thermo-conditioning of presses and equipment, in the optimization of the heating system of the departments and offices thanks to new thermal condensing boilers with almost zero emissions in the atmosphere, in the considerable saving of paper for internal use (forms, photocopies, e-mail prints, etc.), and the adoption of packaging of ecologically classified products, with catalogs printed strictly on "certified" recycled paper.

NOUS AVONS UN COEUR VERT

Sandro Mentasti Environmental Protection Program. Lancé en 2007 ce projet né de la volonté de promouvoir et appliquer une culture interne d'entreprise plus sensible à l'environnement et fondée sur la compatibilité entre notre identité industrielle et écologique. Nous nous engageons à réduire la consommation d'énergie, à éliminer les matériaux toxiques et à développer la recherche et l'innovation technologique dans le total respect de la nature. Tous nos produits commercialisés avec les marques Ariete, Harri's et ARI reflètent cette philosophie de dialogue entre écologie et industrie. Des résultats concrets ont été déjà atteints avec la réduction des consommations énergétiques grâce à l'adoption des transformateurs écologiquement certifiés, la gestion des déchets spéciaux mis en décharge conformément aux lois par des sociétés spécialisées et homologuées, avec la gestion du triage des déchets, avec la réduction draconienne des consommations d'eau à l'aide d'une installation à circuit fermé pour le thermo conditionnement des presses et des équipements, avec l'optimisation du système de chauffage dans les ateliers et les bureaux avec des nouvelles chaudières thermiques à condensation qui ont des émissions dans l'atmosphère proches à zéro, avec des fortes économies de papier pour l'usage interne (formulaires, photocopies, impression des courriels, etc.), avec l'adoption d'emballages et conditionnements écologiques et avec les catalogues imprimés sur papier recyclé «certifié».

TENEMOS UN CORAZON VERDE

Lanzado en 2007, este proyecto nace del deseo de promover y aplicar una cultura corporativa interna más sensible con medio ambiente, basada en la compatibilidad entre nuestra industria y la protección del mismo. El objetivo de nuestro compromiso es reducir el consumo de energía en la producción, eliminar los materiales tóxicos y desarrollar de un mas modo adecuado la investigación y la innovación tecnológica orientadas hacia el respeto del medio ambiente natural. Todos nuestros productos, comercializados bajo las marcas Ariete, Harri's y ARI, son la expresión de nuestra filosofía de diálogo entre la ecología y la industria. Ya se han obtenido resultados concretos en el ahorro energético distribuido en la empresa a través de transformadores ecológicamente certificados, en la gestión de residuos especiales eliminados de acuerdo con la normativa legal por empresas especializadas y homologadas, en la gestión de la recogida selectiva de residuos, la drástica reducción del consumo de agua mediante un sistema de circuito cerrado para el termocondicionamiento de prensas y equipos, en la optimización del sistema de calefacción de departamentos y oficinas con nuevas calderas térmicas de condensación con emisiones a la atmósfera prácticamente nulas, en el considerable ahorro de papel para uso interno (formularios, fotocopias, impresiones de correos electrónicos, etc.) y en la utilización de embalajes y packaging de productos ecológicamente clasificados, así como en catálogos impresos estrictamente en papel reciclado "certificado".

RACE-BASED DEVELOPMENT

IT Ogni progetto viene affinato con innumerevoli tests pratici da parte dei migliori Piloti dei campionati mondiali delle diverse discipline Off-Road. Tutti i suggerimenti dei Piloti vengono elaborati e trasferiti nella maschera finale che viene poi certificata dall'Ente Certificatore.

UK Each project is refined and tested by Ariete riders in relevant off-road world championship events. Rider feed-back is agreed and incorporated into the final design before this is submitted to the certifying authority for approval.

FR Chaque projet est perfectionné avec d'innombrables essais pratiques par les meilleurs Pilotes des championnats du monde des différentes disciplines Off-Road. Toutes les suggestions des Pilotes sont traitées et transférées dans les lunettes finales qui sont par la suite certifiées par l'Autorité de certification.

ES Cada proyecto se mejora con numerosas pruebas prácticas efectuadas por los más destacados Pilotos de los campeonatos mundiales de las diferentes disciplinas Off-Road. Todas las sugerencias de los Pilotos se procesan y se aplican a la máscara final, la que luego será certificada por la entidad correspondiente.

FIELD OF VISION

IT I Tecnici Ariete hanno sviluppato un frame che permette un ampio campo visivo sia lateralmente che verticalmente consentendo al Pilota la massima visibilità dell'ambiente che lo circonda a tutto vantaggio della sicurezza. Le maschere Mudmax, Adrenaline e RC permettono l'uso di occhiali da vista (OTG).

UK Ariete technicians have developed a frame that allows a wide field of view both laterally and vertically. This feature makes a vital contribution to rider safety. Mudmax, Adrenaline and RC goggles are OTG – over the glasses models.

FR Les Techniciens de Ariete ont développé une monture qui offre un large champ visuel soit sur les côtés soit verticalement, ce qui donne au Pilote une visibilité périphérique maximale au plus grand profit de la sécurité. Les lunettes Mudmax, Adrenaline et RC permettent de garder les lunettes de vision (OTG).

ES Los técnicos de Ariete han desarrollado un marco que permite un amplio campo de visión, ya sea lateral como verticalmente, lo que consiente al Piloto la máxima visibilidad del ambiente que lo circunda en beneficio de su seguridad. Las gafas Mudmax, Adrenaline y RC permiten el uso con gafas correctivas (OTG).

ERGONOMICS AND AVANT-GARDE DESIGN

IT Il design delle maschere Ariete nasce dalle esigenze del Pilota nelle condizioni più estreme. I Tecnici Ariete hanno puntato sull'ergonomia del frame che si adatta perfettamente alla conformazione del viso.

UK The shape of Ariete goggle frames was born from experience under extreme conditions. Ariete technicians have focused on the ergonomics of the frame to ensure that it perfectly fits the rider's face.

FR Le design des lunettes Ariete naît des exigences du Pilote dans les conditions les plus extrêmes. Les techniciens de Ariete ont misé sur l'ergonomie de la monture qui s'adapte à la conformation du visage.

ES El diseño de las máscaras Ariete nace de las exigencias del Piloto en condiciones extremas. Los técnicos de Ariete se han concentrado en la ergonomía del cuadro que se adapta perfectamente a la forma de la cara.

HIGH TECHNOLOGY

IT Per realizzare le proprie maschere Ariete si avvale delle tecnologie più avanzate per la produzione di ogni singolo componente. Sofisticate attrezzature permettono di raggiungere quell'alto standard qualitativo che pone le maschere Ariete al top del mercato mondiale.

UK Ariete goggle frames and ancillary components are made with the best technology available. The quality of the tooling ensures that the finish achieved is exemplary.

FR Pour la réalisation de ses lunettes Ariete bénéficie des technologies de pointe pour la production de chaque composant. Des équipements hautement sophistiqués permettent d'atteindre les hauts standards qualitatifs qui poussent Ariete au sommet du marché mondial.

ES Para la realización de las propias máscaras Ariete hace uso de la tecnología más avanzada para la producción de cada componente individual. Son los equipos sofisticados los que permiten alcanzar un alto nivel de calidad ubicando las máscaras Ariete en la cúspide del mercado mundial.

FINE MATERIALS

IT Le materie prime impiegate sono frutto di meticolosa ricerca da parte di Ariete presso le più prestigiose industrie petrolchimiche nei vari continenti in modo da garantire la massima qualità dei materiali impiegati che si riscontra nelle maschere Ariete.

UK The search for new materials is never-ending. Ariete has for years worked with the world's best-known petro-chemical companies. The materials used are the result of research carried out by these companies, and are the best we can find.

FR Les matières premières utilisées sont le fruit d'une recherche minutieuse de la part de Ariete auprès des plus prestigieuses industries pétrochimiques du monde pour garantir la meilleure qualité des matériaux que l'on observe dans les lunettes Ariete.

ES Las materias primas empleadas son fruto de una investigación minuciosa llevada a cabo por Ariete en las industrias petroquímicas de mayor prestigio en distintos continentes, de manera de asegurar la más alta calidad de los materiales aplicados en las máscaras Ariete.

SAFETY

IT La lente dell'occhiale ARIETE resiste all'impatto di una sfera d'acciaio di 6 mm di diametro lanciata a 216 km/h! Il trattamento anti-fog resiste a più del doppio del minimo requisito dalla norma 168:2001.16

UK The ARIETE lens will withstand a 6 mm. steel ball hitting it at 135 miles per hour! The anti-fog treatment withstands more than twice the minimum requirement of standard 168: 2001.16

FR Les verres des lunettes ARIETE résistent à l'impact d'une sphère en acier de 6 mm de diamètre lancée à 216 km/h !
Le traitement anti-buée résiste plus que le double des exigences minimales fixées par la norme 168 :2001.16

ES La lente ARIETE resiste a una esfera de acero de 6mm. de diámetro que impacta a 216 km/h!
El tratamiento anti-empañamiento resiste a más del doble del mínimo prescrito por la norma 168:2001.16

CERTIFICATIONS & MARKING

IT L'occhiale e le lenti Ariete sono certificati secondo le norme europee EN 1938:2010; le lenti sono provviste di trattamento anti-fog che è opzionale secondo la norma europea EN 1938:2010, superano i test di impatto "High Mass" e "High velocity" secondo la norma americana ANSI Z87.1-2003 e rispondono alle caratteristiche prescritte dalla norma americana VESC-8.
Sull'etichetta dell'occhiale vengono riportate le categorie di trasmissione luminosa delle lenti.

UK Ariete goggles and lenses are certified according to European standards EN 1938:2010; they are provided with Anti-fog treatment, which is optional under European standard EN 1938:2010; they pass the "High Mass" and "High velocity" impact tests provided for by American ANSI standard Z87.1-2003; they meet the requirements of American standard VESC-8. The label on the goggles provides the transparency categories of Ariete lenses.

FR La monture et les verres de Ariete sont certifiées selon les normes européennes EN 1938 :2010; les verres ont le traitement anti-buée qui est facultatif selon la norme européenne EN 1938:2010, ils ont passé les tests de résistance aux chocs "High Mass" et "High Velocity" selon la norme américaine ANSI Z87.1-2003 et répondent aux propriétés prescrites par la norme américaine VESC-8.
L'étiquette des lunettes indique les catégories de transmission lumineuse des verres.

ES Las gafas y las lentes Ariete están certificadas conforme a las normas europeas EN 1938:2010; las lentes están provistas de tratamiento anti-empañamiento opcional en la norma europea EN 1938:2010, superan los controles de impacto "High Mass" y "High velocity" conforme a la norma americana ANSI Z87.1-2003 y responden a las características prescritas por la norma americana VESC-8.
Sobre las lentes Ariete viene marcada la categoría de transmisión luminosa de las mismas.

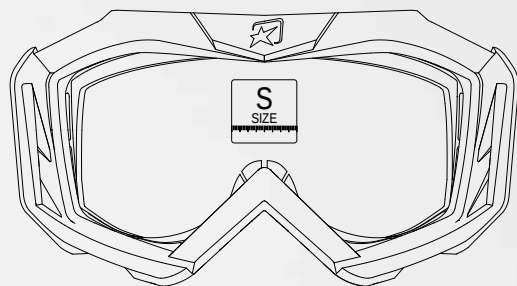

Il Sistema di Ventilazione Ariete, utilizzando specifiche aree per l'ingresso e la fuoriuscita dell'aria, interviene direttamente sulla temperatura all'interno dell'occhiale e sfruttando il profilo frontale superiore del frame, opportunamente ribassato, facilita l'afflusso di aria alle prese di ventilazione del casco.

The Ariete Ventilation System uses carefully chosen areas for the intake and exhaust of cooling air. Airflow from the goggles, whose upper front profile is specially lowered to aid this process, enters the collecting vents at the front of the helmet, flows across the rider's head, and leaves the back of the helmet in a continuous process.

Le Système de Ventilation Ariete, en se servant des zones spécifiques pour l'entrée et la sortie de l'air, intervient directement sur la température à l'intérieur des lunettes. De plus, en exploitant le profil supérieur de la monture, dûment baissé, facilite la pénétration de l'air dans les prises de ventilation du casque.

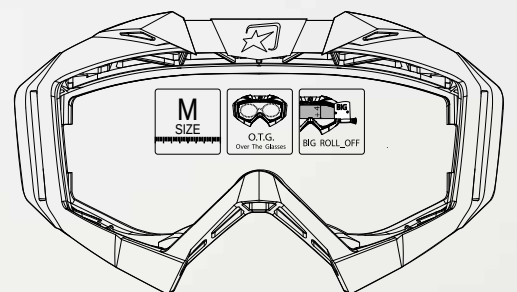

El Sistema de Ventilación Ariete, que tiene zonas específicas para la entrada y salida del aire, regula la temperatura del interior de las gafas y gracias al perfil frontal superior de la montura, adecuadamente rebajado, facilita la circulación del aire en las entradas de ventilación del casco.

IT Traspirante e termoregolatore - Antistatico - Batteriostatico - Performante - Naturale - Schermante

- Traspirante e termoregolatore - Accelera il processo di evaporazione del sudore, rallenta la formazione di umidità sulla pelle e mantiene costante la temperatura.
- Antistatico - Le sue speciali fibre conduttive assorbono e disperdono le cariche elettriche accumulate dall'ambiente esterno o durante l'attività fisica.
- Batteriostatico - Rispetta la pelle e la protegge da batteri e polveri inquinanti, eliminando il rischio di fastidiose allergie.
- Performante - Durante l'attività fisica diminuisce la concentrazione di acido lattico, migliorando la circolazione sanguigna e l'ossigenazione delle cellule.
- Naturale - Naturale al 100%, non tossico e non contiene prodotti chimici.
- Schermante - Protegge il corpo dall'assorbimento di energia statica, dall'elettrosmog e dai raggi UV.

UK Antistatic - Bacteriostatic - Heat regulating and moisture transfer - Natural - Reflective

- High Performance
- Heat regulating and moisture transfer - Speeds up the evaporation process of perspiration and slows down the formation of humidity on the skin to help keep the temperature constant.
- Antistatic - Reacting to natural conductivity in nature, the fiber absorbs and disperses electric charges accumulated from the environment or during physical exercise, to prevent shock and the attraction of dust particles to the product.
- Bacteriostatic - Protects the skin from bacteria and pollutant dusts, eliminating the risk of annoying allergies.
- Natural - 100% natural, non-toxic and does not contain chemicals.
- Reflective - Protects the body from absorbing static energy, electrosmog, and UV rays.

FR Respirant et thermorégulateur - Antistatique - Bactériostatique - Performant - Naturel - Effet écran

- Respirant et thermorégulateur - Pour accélérer l'évaporation de la sueur, et ralentir la formation d'humidité sur la peau, tout en gardant la température constante.
- Antistatique - Ses spéciales fibres conductrices absorbent et dispersent les charges électriques cumulées dans l'environnement extérieur ou durant l'activité physique.
- Bactériostatique - Pour respecter la peau et la protéger des bactéries et des poussières polluantes, éliminant tout risque d'allergies dérangeantes.
- Performant - Durant l'activité physique, baisse la concentration d'acide lactique tout en améliorant la circulation sanguine et l'oxygène des cellules.
- Naturel - Naturel à 100%, non toxique et sans produits chimiques.
- Effet écran - Il protège le corps contre l'absorption d'énergie statique, d'électrosmog et des rayons UV.

ES Transpirante y termoregulador - Antiestático - Bacteriostático - Rendimiento - Natural - Protector

- Transpirante y termoregulador - Acelera el proceso de evaporación del sudor, disminuye la formación de humedad en la piel y mantiene constante la temperatura.
- Antiestático - Sus especiales fibras conductoras, absorben y dispersan las cargas eléctricas acumuladas en el ambiente exterior o durante la actividad física.
- Bacteriostático - Respeta la piel y la protege de bacterias y polvos contaminantes, mejorando el riesgo de fastidiosas alergias.
- Rendimiento - Durante la actividad física disminuye la concentración de ácido láctico, mejorando la circulación sanguínea y la oxigenación de las células.
- Natural - Natural al 100%, no es tóxico y no contiene productos químicos.
- Protector - Protege el cuerpo de la absorción de energía estática, del electrosmog y de los rayos UV.

1 TELAIO

- Taglia Media
- Campo di visione ampliato sul bordo inferiore, ottimizzato per le discese
- Impiego anche con occhiali correttivi (O.T.G.)
- Materiale poliuretano flessibile anche a basse temperature
- Colori anti-UV
- Compatible con il Kit BIG/XL Roll-Off 12962-RCRO

2 LENTE

- Lente multistrato specchiata cat. 2
- Nessuna distorsione ottica
- Miglior trattamento anti-appannamento
- Protezione totale dai raggi UV

3 VENTILAZIONE

- A.V.S. Sistema di Ventilazione Ariete
- Ventilazione maggiorata
- Filtri aperti

4 SPUGNE

- Guarnizione a 3 strati composta da:
 - 1° strato composto da una spugna tecnica a cellule chiuse
 - 2° strato composto da una spugna tecnica supersoft a cellule aperte
 - 3° strato composto da uno strato di CARBON X ipoallergenico rosso a contatto con la pelle

5 ELASTICO

- Elastico h. 45 mm con silicone antiscivolo
- Clip laterale per aggancio lenti a strappo/tear-off
- Doppia fibbia per una veloce regolazione

ACCESSORI INCLUSI

- Lente chiara certificata CE cod.12961-RCCH in Lexan® con trattamento anti graffio completa di clips
- Custodia in microfibra con tasca interna per una lente di ricambio.

FR

1 MONTURE

- Taille Moyenne
- Champ de vision agrandi sur le bord inférieur, optimisé pour les pentes
- Compatible avec le port de lunettes de vue (O.T.G.)
- Matériau polyuréthane flexible même à basses températures
- Coloris anti-UV
- Compatible avec le Kit Roll-Off version BIG/XL 12962-RCRO

2 VERRE

- Verre effet miroir cat. 2
- Verre anti distorsion optique
- Meilleur traitement antibuée
- Protection totale des rayons UV

3 VENTILATION

- A.V.S. Système de Ventilation Ariete
- Ventilation accrue

4 MOUSSES

- Contour à triple épaisseur composé par:
 - 1ère couche de mousse techniques à cellules fermées
 - 2ème couche de mousse technique ultra douce à cellules ouvertes
 - 3ème couche de CARBON X hypoallergenique rouge contact avec la peau

5 ELASTIQUE

- Elastique h. 45 mm avec silicone antiglisce
- Clip latérale pour accrochage des verres lentilles amovibles/tear-off
- Double boucle pour un réglage rapide

ACCESSOIRES INCLUS

- Verre clair certifié CE code 12961-RCCH en Lexan® avec traitement anti-rayure équipé de clips
- Housse en microfibre avec poche interne pour verre de rechange

UK

1 FRAME

- Medium Fit
- Enhanced vision field on the lower lens for downhill riding
- Comfortably Fits Glasses (O.T.G.)
- Tough PUR frame for low-temperature flexibility
- Anti-UV colours
- Compatible with BIG/XL Roll-Off Kit 12962-RCRO

2 LENS

- Mirrored multi-layer lens cat.2
- No optical distortion
- Best anti-fog treatment
- UV radiations total protection

3 VENT SYSTEM

- A.V.S. Ariete Ventilation System
- Extra Ventilation
- Open filters

4 FOAM

- Three-layer face foam specification composed of :
 - 1st layer is technical foam with closed cells
 - 2nd layer is super-soft technical foam with open cells
 - 3rd layer of red hypo-allergenic CARBON X in contact with the skin

5 ELASTIC STRAP

- 45 mm height elastic strap with anti-slip silicone
- Pin to suit tear-off
- Double buckle for quick adjustment

INCLUDED ACCESSORIES

- Lexan® clear lens, CE, anti-scratch treatment, cod.12961-RCCH equipped with clips
- Microfibre bag with internal pocket for a spare lens

ES

1 ESTRUCTURA

- Talla Media
- Campo de visión aumentado en el borde inferior especialmente indicado para la conducción en descenso
- Posibilidad de uso con gafas graduadas (OTG)
- Elaborada en poliuretano elástico fuerte y flexible a bajas temperaturas
- Colores anti UV
- Compatible con el Kit BIG/XL Roll-Off 12962-RCRO

2 LENTE

- Lente de espejo multicapa cat.2
- Sin distorsión óptica
- Mejor tratamiento anti-empañamiento
- Protección total contra los rayos UV

3 VENTILACIÓN

- A.V.S. Sistema de Ventilación Ariete
- Ventilación extra
- Filtros abiertos

4 ESPUMA

- Especificación facial de tres capas compuesta de:
 - 1 capa de espuma técnica con células cerradas
 - 1 capa de espuma técnica súper suave con células abiertas
 - 1 capa de tejido CARBON X hipoalergénico de color rojo en contacto con la piel

5 ELÁSTICO

- Banda de 45 mm de altura con silicona antideslizante
- Clip para instalación tirables/tear-off
- Doble hebilla para un ajuste rápido

ACCESORIOS INCLUIDOS

- Lente transparente en Lexan®, CE, con tratamiento anti-rayado cod.12961-RCCH equipada con clips

12964-RCRO

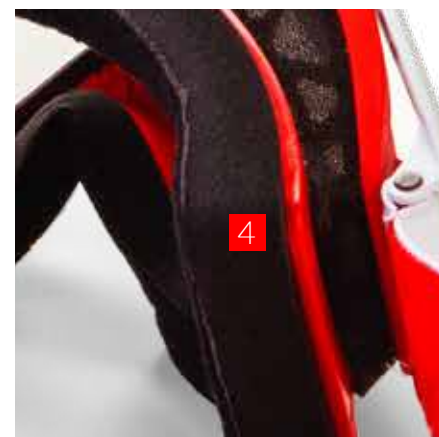

STANDARD TEAR-OFF
12964-RCLE

Kevin Horgmo - Photo JP Acevedo / CroyMert Racing

IT

1 TELAIO

- Taglia media/grande
- Materiale poliuretano flessibile anche a basse temperature
- Colori anti UV
- Logo in metallo smaltato
- Chele x elastico fissate radialmente alla montatura x fitting ottimale
- Impiego anche con occhiali correttivi (OTG)
- Compatibile con il Kit BIG/XL Roll-Off cod. 12962-RCRO

2 LENTE

- Chiara in Lexan® doppia, cilindrica, ventilata cod. 12961-DCV
- Miglior trattamento anti appannamento
- Trattamento anti graffio
- Nessuna distorsione ottica
- Protezione totale dalle radiazioni UV

3 VENTILAZIONE

- A.V.S. Sistema di Ventilazione Ariete
- Ventilazione maggiorata
- Filtri aperti

4 SPUGNE

- Spugna termoformata in 3D per dare un comfort eccezionale
- Guarnizione a 2 strati composta da:
- 1 strato di spugna tecnica super soft a cellule aperte
- 1 strato di pile ipoallergenico nero a contatto con la pelle
- Disponibile versione per visi asiatici (ASIAN FITTING FOAM)

5 ELASTICO

- Elastico con 1 linea di silicone antiscivolo
- Doppia fibbia per regolazione

FR

1 MONTURE

- Taille moyenne/grande
- Matériau polyuréthane flexible même à basses températures
- Coloris anti-UV
- Logo en métal émaillé
- Pins de fixation de l'élastique placés radialement à la monture pour un ajustement optimal
- Compatible avec le port de lunettes de vue (O.T.G.)
- Compatible avec le Kit BIG/XL Roll-Off code 12962-RCRO

2 VERRE

- Clair en Lexan® double, cylindrique, ventilé code 12961-DCV
- Meilleur traitement antibuée
- Traitement anti-rayure
- Verre anti distorsion optique
- Protection totale des rayons UV

3 VENTILATION

- A.V.S. Système de Ventilation Ariete
- Ventilation accrue
- Filtres ouverts

4 MOUSSES

- Mousse thermoformée en 3D pour un confort exceptionnel
- Contour à double épaisseur composé par:
- 1 couche de mousse technique ultra douce à cellules ouvertes
- 1 couche en polaire noire anti allergique en contact avec la peau
- Disponible dans la version pour visages asiatiques (ASIAN FITTING FOAM)

5 ELASTIQUE

- Elastique avec 1 bande en silicone antiglisce
- Double boucle de réglage

UK

1 FRAME

- Medium/Large Fit
- Tough PUR frame for low-temperature flexibility
- Anti - UV colours
- Logo in lacquered metal
- Adjustable outriggers for perfect helmet fit
- Comfortably Fits Glasses (O.T.G.)
- Compatible with BIG/XL Roll-Off Kit cod. 12962-RCRO

2 LENS

- Lexan® double, cylindrical and ventilated clear lens cod. 12961-DCV
- Best anti-fog treatment
- Anti-scratch treatment
- No optical distortion
- UV radiations total protection

3 VENT SYSTEM

- A.V.S. Ariete Ventilation System
- Extra Ventilation
- Open filters

4 FOAM

- 3D thermoformed foam
- 2 layer face foam specification composed of:
- 1 super-soft technical foam layer with open cells
- 1 hypo-allergenic foam layer in contact with the skin
- Asian fitting foam version available

5 ELASTIC STRAP

- Elastic strap with 1 anti-slip silicone bead
- Double buckle for quick adjustment

ES

1 ESTRUCTURA

- Talla Media / Grande
- Elaborada en poliuretano elástico fuerte y flexible a bajas temperaturas
- Colores anti UV
- Logo en metal esmaltado
- Garras para la tracción del elástico
- Posibilidad de uso con gafas graduadas (OTG)
- Compatible con el Kit BIG/XL Roll-Off cod. 12962-RCRO

2 LENTE

- Lente transparente doble, cilíndrica y ventilada en Lexan® cod. 12961-DCV
- Mejor tratamiento anti-empañamiento
- Tratamiento anti-rayado
- Sin distorsión óptica
- Protección total contra los rayos UV

3 VENTILACIÓN

- A.V.S. Sistema de Ventilación Ariete
- Ventilación extra
- Filtros abiertos

4 ESPUMA

- 3D termoformada para una perfecta ergonomía y adaptación a la cara
- Interior con 2 capas compuesta de:
- 1 capa de espuma técnica súper suave de células abiertas
- 1 capa de tejido anti-alérgico de color negro en contacto con la piel
- Disponible versión para fisonomía asiática

5 ELÁSTICO

- 1 línea de silicona antideslizante
- Doble hebilla para un ajuste rápido

VULCAN GRIPS

- IT**
- 1 -Piramidi con base a 3 lati ed a forma variabile:
 - micropiramidi nella zona indice/pollice
 - piramidi più alte per extra grip nella zona palmare
 - piramidi orientate per dare maggiore appoggio in curva nella zona esterna
 - 2 Area di maggior usura rinforzata per aumentare la durata della manopola;
 - 3 Base manopola in materiale semirigido anti-torsione;
 - 4 Fondello predisposto all'asportazione (con guidalama) in caso di uso di paramani chiusi;
 - 5 -4 cave per filo di ferro per serraggio perfetto

- UK**
- 1 -Pyramid shapes with a triangular base in varying height:
 - micro Pyramids in the thumb/index finger area
 - large Pyramids for extra grip in the palm area
 - contoured Pyramids in the outer palm area, for extra comfort and support through corners and turns
 - 2 The principle pressure point areas of the grip are reinforced for longevity;
 - 3 Chassis in semi-rigid torque-limited elastomer;
 - 4 Outer flange pre-marked for piercing with a cutting guide for use with all-round hand guards;
 - 5 -four grooves for steel wire give extra security

- FR**
- 1 -Grip double densité avec 3 niveaux de grips pyramidales:
 - micro-pyramide dans la zone du pouce et de l'index
 - pyramides moulées arrondies au niveau de la paume pour plus de confort et de maintien dans les virages
 - pyramides larges sur l'extérieur de la poignée pour une adhérence parfaite
 - 2 Grip renforcé pour une meilleure longévité
 - 3 Grip en élastomère semi-rigide
 - 4 Guide de coupe pour une utilisation avec des protège-mains
 - 5 -4 rainures prévues pour un serrage parfait (fil de fer).

- ES**
- 1 -Pirámides con base de tres lados y forma variable
 - micropirámides en la zona indice/pulgar
 - pirámides más altas para agarre extra en la zona de la palma
 - pirámides orientadas para dar mayor apoyo en curva en la zona externa
 - 2 Area de mayor desgaste reforzada para aumentar la duración del puño
 - 3 Base del puño en material semi-rigido anti torsión
 - 4 Aleta externa pre-marcada para ser perforada con una guía de corte para ser usado con paramanos
 - 5 -4 canales de alojamiento de alambre para un agarre perfecto

TRINITY GRIPS

- IT**
- 1 Base manopola in materiale semirigido anti-torsione
 - 2 Zona palmare in confortevole Supersoft, zona presa dita con specifico rilievo half-waffle
 - 3 Incavo con sagoma anatomica lato destro per pollice ed indice
 - 4 4 cave per filo di ferro per serraggio perfetto
 - 5 La 4°cava è situata all'estremità dell'impugnatura per ridurre l'entrata di impurità tra manopola/manubrio e manopola/comando gas con paramani chiusi
 - 6 Fondello predisposto all'asportazione (con guidalama) in caso di uso di paramani chiusi
 - 7 Flangia maggiorata, internamente rinforzata, rivestita in morbidissimo Xtouch
- UK**
- 1 Chassis in semi-rigid torque-limited elastomer
 - 2 Palm in legendary Supersoft, critical finger-grip area with half-waffle surface
 - 3 Anatomically profiled cut-out on the right side for thumb and forefinger
 - 4 Four grooves for steel wire give extra security
 - 5 The fourth groove is situated at the extreme outer end of the grip to prevent grit from being trapped between bar and grip or bar and twist grip when used with hand guards
 - 6 Outer flange pre-marked for piercing with a cutting guide for use with all-round hand guards
 - 7 Pronounced inner flange with internal reinforcement, coated in extra-soft XTouch
- FR**
- 1 Base de la poignée en matériau semi-rigide anti-torsion
 - 2 Zone palmaire en agréable Supersoft, zone de prise des doigts avec relief spécifique half-waffle
 - 3 Creux anatomique côté droit pour pouce et index
 - 4 4 encoches pour fil de fer pour un serrage parfait
 - 5 la 4ème encoche se trouve à l'extrémité de la poignée afin de réduire l'entrée d'impuretés entre la poignée/guidon et la poignée/commande gaz avec pare mains fermés
 - 6 Culot amovible (avec guide-lame) en cas d'utilisation de pare mains fermés
 - 7 Bride agrandi, renforcée intérieurement, revêtement super souple en Xtouch
- ES**
- 1 Núcleo en material semi-rigido anti-torsión
 - 2 Zona de la palma confortable Supersoft, zona de agarre con relieve específico half-waffle
 - 3 Recorte anatómico perfilado en el lado derecho para el pulgar y el índice
 - 4 4 espacios para facilitar la colocación del alambre de acero para una sujeción perfecta
 - 5 El 4º espacio esta situado en el extremo para evitar que entren impurezas entre el puño/manillar y el puño/ acelerador cuando se montan paramanos cerrados
 - 6 Aleta externa pre-marcada con una guía para facilitar el corte en caso ser usado con paramanos
 - 7 Borde interno aumentado y reforzado, revestido en material extra suave XTouch

ARIRAM GRIPS

- IT
- 1 Forma cilindrica a spessore costante;
 - 2 Base manopola in materiale semirigido anti-torsione;
 - 3 Zona palmare confortevole e liscia, extra grip nella zona retro delle dita;
 - 4 Fondello conico ottimizzato per i bilanciari;
 - 5 Progettata per il massimo controllo ed assorbire le vibrazioni;
 - 6 4 cave per il filo di ferro per un serraggio perfetto

- UK
- 1 Cylindrical shape with consistent parallel wall thickness;
 - 2 Chassis in semi-rigid torque-limited elastomer;
 - 3 Smooth and comfortable palm area with textured finger grip on opposite face;
 - 4 Conical base to accommodate bar end weights;
 - 5 Cleverly-designed to give exceptional grip and absorb vibration;
 - 6 Four grooves for steel wire give extra security

- FR
- 1 Grip de forme cylindrique à épaisseur constante
 - 2 Grip en élastomère semi-rigide
 - 3 Zone lisse et confortable au niveau de la paume avec une légère zone de grip sur la partie arrière
 - 4 Grip avec embout conique pour une parfaite adaptation avec les embouts de guidon
 - 5 Grip issu de la recherche et développement Ariete, garantissant une adhérence exceptionnelle et une parfaite absorption des vibrations
 - 6 4 rainures prévues pour un serrage parfait (fil de fer).

- ES
- 1 Forma cilíndrica de espesor constante
 - 2 Base del puño en material semi-rigido anti torsión
 - 3 Zona de la palma confortable y lisa. Agarre extra en la zona trasera de los dedos
 - 4 Fondo cónico optimizado para los contrapesos
 - 5 Proyectado para el máximo control y absorción de vibraciones
 - 6 4 canales de alojamiento de alambre para un agarre perfecto

Transparent - carbon look

- IT - Resinatura trasparente resistente ai raggi UV - Materiale antigraffio e durevole - Adesivo di alta qualità (non danneggia la vernice del serbatoio)
- UK - Perfectly UV-resistant transparent resin - Anti-scratch and long-lasting material - Top quality adhesive (no damage to fuel tank)
- FR - Résine parfaitement transparente et résistante aux rayons UV - Matériel anti-rayures et durable - Support adhésif de haute qualité (qui n'endommage pas le vernis)
- ES - Resina transparente resistente a los rayos UV - Material anti-rayas y resiste el paso del tiempo - Material adhesivo de altísima calidad (no daña la pintura del depósito)

RACING VALVES FOR TUBELESS

- IT** - Valvola di sicurezza in alluminio per pneumatici tubeless
- L'angolazione a 90° permette l'accesso durante il gonfiaggio
 - Mantiene la pressione del pneumatico
 - Conf. 2 pezzi
- UK** - Safety valve in aluminium for tubeless wheels
- Practical access for inflation
 - No loss of pressure in the tyre
 - Sold in pairs
- FR** - Valve de sécurité en aluminium pour tubeless
- L'inclinaison résout complètement les problèmes d'accès au gonflage
 - Maintient la pression des pneus
 - Vendu par paires
- ES** - Válvula de seguridad en aluminio para neumáticos sin cámara
- La inclinación de la válvula a 90° permite un práctico acceso para el hinchado
 - Mantiene la presión del neumático
 - Se venden por pares

ARI THE ORIGINAL FORK OIL SEALS

IT L'anello di tenuta paraolio di **Ariete** è il top esistente nel mercato per l'alta qualità dei materiali utilizzati e l'elevatissimo grado di finitura.

La linea **ARI** con oltre 170 tipi diversi equipaggia più di 35.000 modelli di moto con forcelle tradizionali e rovesciate (USD) dal funzionamento teleidraulico degli anni 60 a quello pneumatico (Aria) sempre più attuale nel mondo Off-Road. **ARI**, il paraolio di **Ariete** sinonimo di perfezione assoluta.

UK **Ariete** fork oil-seals are the best you can get. This claim is justified by the quality of the materials used, and attention to detail in their design and manufacture.

The **ARI** range has more than 170 different seal sizes. These cover more than 35,000 different motorcycle models with both traditional and upside-down forks. We have seals for classic 1960s telescopic forks extending through to the air forks now common both on- and off-road.

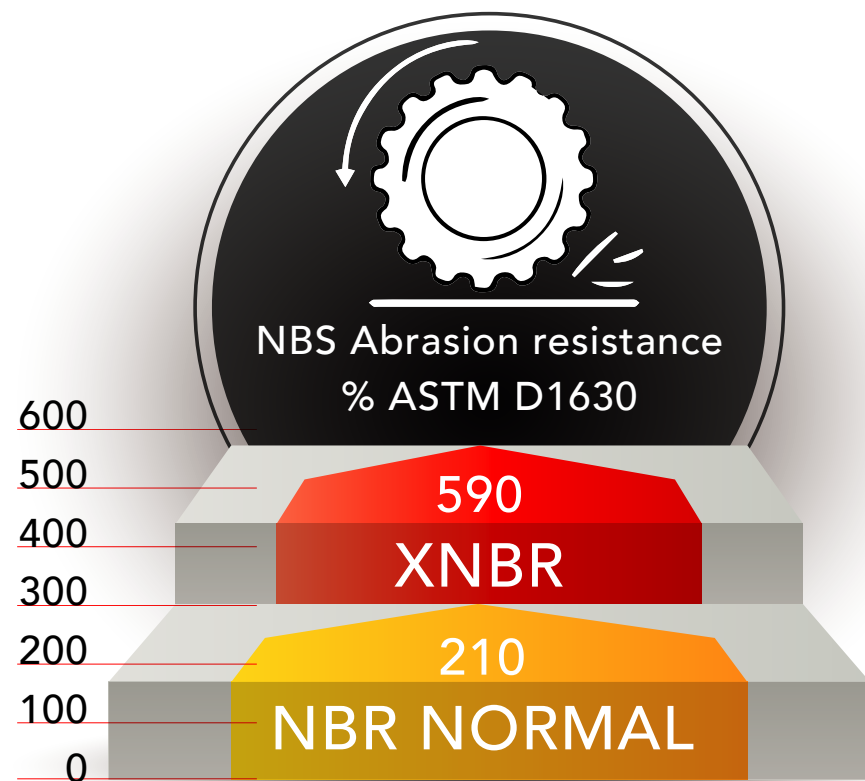

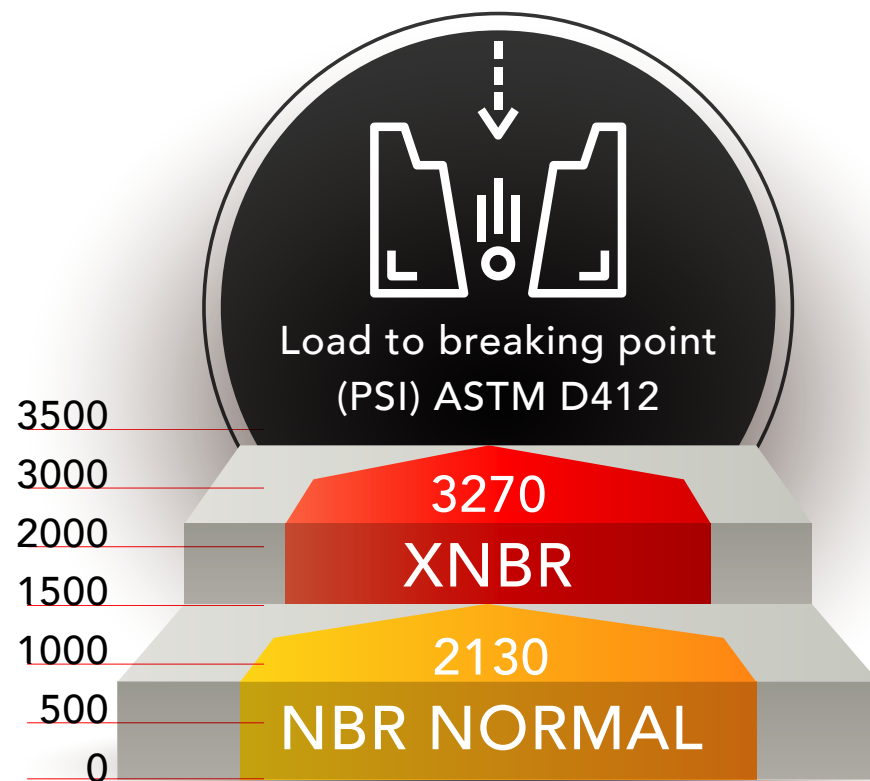

ARI fork oil-seals - perfection, from **Ariete**.

FR Le Joint Spy de **Ariete** représente le top sur le marché pour la haute qualité des matériaux utilisés et le degré de finition très élevé.

La gamme **ARI** avec ses 170 différents types équipe plus de 35.000 modèles de motos avec fourches soit traditionnels qu'inversées (USD) du fonctionnement télé-hydraulique des Années '60 au fonctionnement pneumatique (Air) de plus en plus actuel dans le monde Off-Road. **ARI**, le Joint Spy de **Ariete** synonyme de perfection absolue.

ES El retén de horquilla **Ariete** representa el máximo nivel alcanzado en el mercado existente gracias a la alta calidad de los materiales utilizados y también al alto grado de acabado.

La línea **ARI**, con más de 170 tipos diferentes equipa a más de 35.000 modelos de motocicletas con horquillas convencionales y telescópicas invertidas (USD), desde aquellas de funcionamiento hidráulico de los años '60 hasta las de funcionamiento neumático (Aire) cada vez más presentes en el mundo Off-Road. **ARI**, el retén de **Ariete** sinónimo de perfección absoluta.

ARI THE ORIGINAL FORK OIL SEALS **XNBR**

IT ARIETE FORK OIL SEALS, gli specifici anelli di tenuta per forcelle

L'anello di tenuta paraolio per forcella prodotto dalla Ariete si differenzia da tutti gli altri disponibili sul mercato per l'alta qualità ed unicità del materiale utilizzato per la sua realizzazione: l'elastomero carbossilico **XNBR**. Questa miscela infatti possiede caratteristiche eccezionali di resistenza alla abrasione, alla temperatura ed agli olii con particolari additivi usati nelle moderne forcelle per moto e scooters. L'anello di tenuta per forcella lavorando in senso longitudinale sullo stelo è sottoposto ad una notevole azione abrasiva che unita al calore generato dallo scorrimento provoca un processo di deterioramento della parte in gomma che già è messa a dura prova dall'aggressione chimica degli olii con relativi additivi. La normale gomma nitrilica NBR, solitamente impiegata da tutti i produttori di anelli paraolio, è una scelta mediocre determinata da fattori di economicità.

Lo Staff Tecnico della Ariete, dopo approfonditi studi e sperimentazioni e supportato dall'esperienza maturata dall'Azienda in settanta anni di attività, ha adottato per questa linea di anelli paraolio l'elastomero carbossilico **XNBR** che rispetto al tipo normale NBR presenta le seguenti performances:

Le sofisticate tecnologie di produzione impiegate dall'Ariete permettono di ottenere prezzi altamente competitivi nonostante il costo dell'elastomero **XNBR** sia quasi il doppio del tipo normale permettendo al Cliente Ariete di avere un prodotto di altissima qualità che soddisfi le più esigenti aspettative ad un prezzo equo.

UK ARIETE FORK OIL SEALS, custom-made for your fork

Ariete fork oil seals are different! The quality of their execution is matched by the unique nature of the material used: the carboxylated elastomer known as **XNBR**.

This compound offers unique characteristics of resistance to abrasion, to high temperatures, and to the complex lubricants with numerous additives, which are used in modern forks as fitted to motorcycles and scooters. The reciprocating action of the fork tube against the seal subjects it to a notable degree of abrasion, which is complicated by the heat generated as a result of hydraulic displacement within the fork, plus the friction of the components involved. This mechanical wear and tear leads to accelerated ageing of the rubber which is also obliged to deal with the chemical action of the various additives in the lubricant. Oil seals are normally made from a nitrile rubber, known as NBR. This is used because it is cheap, and plentiful, not because NBR is the best material for the job. Our technical staff have accumulated 70 years of experience in the rubber industry, and have spent many years looking for a better material for the manufacture of oil seals. In our view, the carboxylated elastomer known as **XNBR** has the following major advantages when compared with NBR:

Although the cost of **XNBR** is almost twice that of NBR, the sophisticated technology used to make our oil seals enables us to put them on the market at highly competitive prices. In this way, the Ariete Customer enjoys the benefits of a very high quality product, which satisfies the most demanding requirements, at a competitive price.

FR ARIETE FORK OIL SEALS, les Joints Spy de fourche

Le Joint Spy de fourche produit par Ariete se différencie de tous les autres disponibles sur le marché par la haute qualité et le matériel unique utilisé pour sa réalisation: l'élastomère carboxylique **XNBR**. Ce mélange comporte des caractéristiques exceptionnelles de résistance à l'abrasion, à la température et aux huiles contenant des additifs particuliers utilisés dans les fourches modernes pour motos et scooters. Les joints spy de fourche en travaillant de façon longitudinale le tube sont soumis à une importante action abrasive qui, avec la chaleur, produite par le frottement provoque un processus de détérioration de la partie en caoutchouc qui est déjà mis à dure épreuve par l'agression chimique des huiles et ses additifs. Le caoutchouc nitrile NBR, habituellement employé par tous les fabricants de joints spy, est un choix médiocre déterminé par des facteurs économiques. Le Staff Technique de Ariete après des études approfondies et des expérimentations effectués grâce à l'expérience de la Société après soixante-dix ans d'activité, a adopté pour cette ligne de produits l'élastomère carboxylique **XNBR** qui par rapport au type normal NBR présente les performances suivantes:

Les technologies de production particulièrement sophistiquées employées par Ariete permettent d'obtenir des prix hautement compétitifs malgré que le coût de l'élastomère **XNBR** soit presque le double du type normal permettant au Client Ariete d'avoir un produit de très haute qualité qui satisfait les demandes les plus exigeantes à un prix abordable.

ES ARIETE FORK OIL SEALS, el retén específico para horquilla

El retén de horquilla producido por Ariete se diferencia de otros productos existentes por la alta calidad y unicidad del material utilizado para su fabricación: el elastómero carboxilico **XNBR**. Esta mezcla posee en efecto características excepcionales de resistencia a la abrasión, a la temperatura y a los aceites que con aditivos muy específicos se utilizan en las horquillas de motocicleta y scooter. El retén para horquilla, al trabajar en sentido longitudinal a la barra está expuesto a una notable acción abrasiva que unida al calor provocado por la fricción generan un proceso de deterioro de la goma. Es importante entender que esta ya ha sido puesta a una dura prueba debido a la agresión de los aditivos que tiene los aceite para horquilla. Los compuestos de gomas nitrílicas NBR, normalmente empleadas en la producción de todos los retenes de horquilla es una mediocre elección determinada por factores exclusivamente económicos. Setenta años de experiencia, sobre todo en el exigente mundo industrial, han determinado que el equipo dirigente de Ariete determinara que la producción de estos productos ha de tener de forma exclusiva el elastómero de carbonosilicio **XNBR** que respecto a los tipos normales NBR tiene las siguientes ventajas:

Las sofisticadas técnicas de producción empleadas en Ariete permiten obtener unos precios altamente competitivos a pesar de que el costo del compuesto **XNBR** es prácticamente el doble del tipo normal. Para nosotros es importante explicar que el Cliente Ariete obtiene unos productos de altísima calidad que satisfarán las mas exigentes expectativas.

ARI THE ORIGINAL FORK OIL SEALS

IT ARISIL lo speciale grasso lubrificante per anelli di tenuta. L'anello di tenuta paraolio per forcella ARI è prodotto con una miscela di gomma specifica per resistere agli olii, con relativi additivi, utilizzati nelle sospensioni. Questa miscela è completamente diversa da quella usata normalmente per gli anelli paraolio per alberi rotanti, in quanto deve resistere in modo diverso all'aggressione chimica causata dagli olii ed al lavoro meccanico in senso longitudinale tipico della forcella. I nostri anelli di tenuta paraolio ARI sono inoltre concepiti con una struttura di labbri di tenuta particolari con diverse sezioni per meglio resistere e al tempo stesso ridurre il più possibile l'attrito dello stelo all'interno del paraolio. Nel corso degli anni si è evidenziato il ruolo indispensabile di un lubrificante separatore tra lo stelo e l'anello in gomma che riduca il più possibile l'attrito senza compromettere la tenuta della guarnizione. Per risolvere questo problema abbiamo testato diversi grassi e la scelta è caduta su uno speciale grasso siliconico, prodotto negli USA studiato appositamente per le applicazioni gomma-metallo degli organi meccanici dei veicoli spaziali della NASA. Il vantaggio di questo grasso particolare che abbiamo denominato ARISIL sta nel fatto di prolungare la vita del paraolio preservando l'integrità delle caratteristiche fondamentali di resistenza chimica ed elastica. Per questo motivo in tutte le nostre confezioni di ARI FORK OIL SEALS includiamo una bustina monodose di ARISIL che serve per il corretto montaggio dei 2 paraolio.

UK ARISIL special oil seal lubricant. ARI fork oil seals are made from a rubber compound specifically developed to work with the lubricants used in front forks, with all their various additives. This compound is completely different from that normally used for rotating shaft seals, since the physical environment inside a fork with its reciprocating movement, and the specialist lubricants, are completely different. We have designed ARI oil seals with a variety of lip profiles to make them longer lasting, while reducing to a minimum the friction effect against the moving shaft. Over the years, we have discovered the key role of a separating lubricant between the fork tube and the rubber of the oil seal to reduce to a minimum the surface friction, without affecting the function of the oil seal. After exhaustive testing, we have chosen a lubricant which is produced in the USA, and devised specifically as a rubber/metal lubricant for mechanical components used in the NASA space program. The advantage of this special grease, which we call ARISIL, is that it extends the life of the oil seal, and helps it retain its vital characteristics of flexibility and chemical resistance. For this reason, every set of ARI FORK OIL SEALS contains a single dose sachet of ARISIL, sufficient to lubricate the two oil seals supplied.

FR ARISIL la graisse speciale lubrifiante pour joints spy. Le joint spy de fourche ARI est produit avec un mélange de caoutchouc spécifique pour résister aux huiles, et ses additifs utilisés dans les fourches. Ce mélange est totalement différent de celui qui est normalement utilisé pour les joints spy de vilebrequin. En effet il doit résister à l'agression chimique causée par les huiles et au travail mécanique dans le sens longitudinale typique du fonctionnement d'une fourche. Nos joints spy de fourche ARI sont conçus avec une géométrie de lèvres particulièrement étudiée avec différentes sections pour mieux résister à l'abrasion et en même temps réduire au maximum le frottement du tube de fourche à l'intérieur du joint spy. Au cours des années nous avons mis en évidence le rôle indispensable de la forme des lèvres ainsi que leur usinage afin de réduire au maximum le frottement sans pour cela compromettre l'étanchéité du joint. Pour résoudre ce problème, nous avons testé plusieurs graisses et notre choix s'est arrêté sur une graisse spéciale siliconique, produite aux USA et étudiée pour les applications caoutchouc-métal des organes mécaniques des véhicules spatiaux de la NASA. L'avantage de cette graisse particulière que nous avons nommée ARISIL, consiste à prolonger la durée de vie du joint spy tout en préservant l'intégrité des caractéristiques fondamentales de résistance chimique et élastique. C'est pour cette raison que dans toutes nos boîtes de ARI FORK OIL SEALS nous joignons une pochette monodose de ARISIL qui sert pour le montage correct des 2 joints spy.

ES ARISIL la grasa especial para retenes. Los retenes de horquilla ARI se han fabricado con un tipo de goma resistente a los aditivos que llevan los aceites de suspensión. Esta mezcla es completamente diferente de la que pueda utilizarse para los retenes de cigueñal, ya que debe resistir de una forma diferente la agresión química causada por el aceite, así como el trabajo mecánico en el sentido longitudinal propio de la suspensión. Nuestros retenes ARI se han proyectado, además, con estructuras en el borde del labio diferentes para mejorar la resistencia y al mismo tiempo reducir el máximo posible la fricción de la barra en el interior del reten. La experiencia ha demostrado que es necesario un lubricante separador entre la barra y el reten, su misión es reducir la fricción sin deteriorar la estanqueidad de la junta. Para resolver este problema probamos diversos componentes grasos, el escogido fue una grasa silicona, producida en los U.S.A. y especialmente estudiada como aplicación para goma - metal de los órganos mecánicos de los vehículos espaciales de la N.A.S.A. Las ventajas de esta grasa, que hemos denominado ARISIL, reside en el factor que permite alargar la vida del retén preservando la integridad de las características fundamentales de resistencia química y elástica. Por este motivo hemos incluido en todos nuestros kits de reparación ARI FORK OIL SEALS, una bolsa de ARISIL que sirve para montar de forma correcta los dos retenes.

TYPICAL CHARACTERISTICS

Product type:	GREASE
Colour:	WHITE
Composition:	SILICONE LUBRICANT WITH ADDITIVES
Temperature range	-65° degrees c => +175° degrees c
Coefficient of friction	0.003 - load 6.3 n at 10 mm per second 24h
USA military specification	G-4343 C

10945 1 gr. - 0,03527 ounces

12950 100 gr. - 3,527 ounces

ARI THE ORIGINAL FORK OIL SEALS

IT Questo attrezzo per montare correttamente i paraolio su forcelle tradizionali e rovesciate (upside down) è disponibile per paraolio da 35 a 51 mm di diametro interno. Ricavato dal pieno è in acciaio con trattamento galvanico anticorrosione ed ha una superficie esterna lavorata per una presa sicura. Il peso è tra gli 800 ed i 1000 grammi a seconda delle misure. Viene venduto singolarmente.

UK The Split fork seal driver is a tool used for changing the fork seals on conventional and upside down forks. Available for fork seals in 35 mm thru 51 mm configurations. Manufactured from plated carbon steel, featuring split design and weighted body. Weight range from 800 to 1.000 gr. Sold individually.

FR Cet outil pour monter correctement les joint-spy sur les fourches traditionnelles et inversées (upside down) est disponible pour joint-spy de 35 à 51 mm de diamètre intérieur. Creusé dans la masse il est en acier galvanisé anti-corrosion et a une surface extérieure travaillée pour permettre une prise en toute sécurité. Son poids est compris entre 800 et 1000 grammes selon les mesures. Il est vendu séparément.

ES Este útil para el montaje correcto de los retenes en horquillas tradicionales e invertidas (upside down) está disponible para retenes de 35 a 51 mm de diámetro interno. Realizado a partir de un bloque de acero mecanizado, con un tratamiento anticorrosión, posee una superficie externa que permite un perfecto agarre. El peso está comprendido entre 800 y 1000 grs. Se vende por unidades.

BRAKE CALIPERS SEAL KITS

IT **Ariete** presenta una nuova linea di guarnizioni per pinze e pompe freno, per moto e scooters, quale ricambio non originale delle più diffuse marche presenti nel mercato. Il materiale utilizzato per le guarnizioni è una speciale miscela a base di EPDM HP messa a punto da Ariete e particolarmente resistente ai liquidi per freno più comunemente usati, DOT3 e DOT4.

Chiedere il catalogo specifico delle applicazioni ai vari modelli di moto e scooters.

UK **Ariete** introduces a new line of seal kits to suit brake calipers and master-cylinders for motorcycles and scooters. These are after-market replacements which fit many of the most popular models on the market.

The material used for the seals is a special compound of EPDM HP, developed by Ariete and fully compatible with the most common brake fluids (DOT3 and DOT4).

Ask for our special catalogue covering applications for different models of motorcycles and scooters.

FR **Ariete** présente une nouvelle ligne de garnitures pour fourches et pompes pour freins pour motos et scooters, en tant que pièces détachées non originales des marques les plus répandues sur le marché. Le matériel utilisé pour les garnitures est un mélange spécial à base de EPDM HP mis à point par Ariete et particulièrement résistant aux liquides pour freins les plus communément utilisés, DOT3 et DOT4.

Demandez le catalogue spécifique des applications des différents modèles de motos et scooters.

ES **Ariete** presenta una nueva linea de juntas para pinzas y bombas de freno para motos y scooters, como pieza de repuesto no original de las más difundidas marcas del mundo. El material usado para las juntas es una especial mezcla de EPDM HP, estudiada por Ariete y particularmente resistente a los líquidos para los frenos más comúnmente usados, como DOT3 y DOT4.

Pidan el catalogo específico de las aplicaciones a los varios modelos de motos y scooters.
