ONRoad Mandos Gas

MANDOS GAS ONRoad Throttle controls ONRoad

Posición del tope del cable cuando el mando **gas** está totalmente **cerrado**.
Nipple position when the throttle is fully closed

Posición del tope del cable cuando el mando **gas** está totalmente **abierto**.
Nipple position when the throttle is fully open

NOTAS/NOTES:

- Velocidad = es la velocidad de la rotación del mando de gas, necesario para abrir completamente las mariposas o campana del carburador, por lo tanto, cuando menor es el valor, más rápido será el mando gas de goma de Domino ($^{\circ}/1\text{mm}$ = el cable se mueve 1 mm por cada grado de rotación del puño). *Quickness = it is the rotation quickness the throttle control con open the throttle body/carburettor with. Therefore, the lower the value, the quicker the throttle control indise de orange of Domino throttle controls. ($^{\circ}/1\text{mm}$ = The nipple moves by 1 mm each X throttle rotation degree)*
- Recorrido Max = es el movimiento máximo que el mando gas permite hacer al tope del cable de gas. *Max stroke = it is the max movement that the throttle control can let the nipple do.*
