

WELCOME

IT'S IN THE DETAIL

Welcome to the new 2020 RST Product Guide. You'll find our most up-to-date range of motorcycle clothing, gloves and footwear.

We've been doing this for over 30 years, and we find ourselves still undeniably passionate about designing and manufacturing fantastic quality motorcycle apparel, that looks great, offers the unparalleled levels of safety and is available at an affordable price. This is why RST is the brand of choice for riders – it's designed to protect in the toughest conditions.

SAFETY IS AT THE CORE OF EVERYTHING WE DO

RST's commitment to safety is demonstrated by its status as Official Safety Partner at world-renowned road races such as the North West 200 and Isle of Man TT, where RST products undergo the ultimate test.

Knowledge gained through countless hours of product development and partnerships with top-level world riders such as Ian Hutchinson (TT), Alex Lowes (WSBK) and Kenny Foray (FSBK), enables us to keep safety at the heart of our product innovation.

CE CERTIFIED: AS STANDARD

Where possible, we integrate CE back protectors in the garments, and were the first British brand to have our entire range tested and CE certified to PREN 17092.

We are therefore extremely proud that the entire RST range is fully CE certified, guaranteeing a level of protection and reassurance that you can ride knowing that if you need it, RST has you covered.

Jonny Towers RST Founder

NEW FOR 2020

There are so many new products to choose from, here are some highlights:

PAGE 08 THE RST AIRBAG RANGE – Our collection of four fully integrated airbag garments using In&motion technology combines comfort and discretion to offer enhanced rider protection

PAGE 56 ISLE OF MAN BRANDISH JACKET - oozes retro cool and has the protection to match

PAGE 68 ADVENTURE-X JACKET & JEAN – features the new and unique waterproof and thermal quilted X-Liner

PAGE 74 PATHFINDER JACKET & JEAN - fully laminated touring jacket and jean which offers unparalleled levels of waterproofing and protection

PAGE 86 MAVERICK JACKET & JEAN - a true maverick whatever the weather

PAGE 118 REINFORCED COLLECTION - Strengthened with DuPont™
Kevlar®, this range of shirts and jeans offers a relaxed style
with a solid safeguard

www.rst-moto.com

WE ARE PASSIONATE MOTORCYCLISTS.

EVERY GARMENT WE DEVELOP, WE NEED TO BE PREPARED TO WEAR OURSELVES.

THIS PHILOSOPHY IS APPLIED TO EVERY PRODUCT WE MAKE.

DESIGNED BY RST - RST is designed and developed at our facility in Derbyshire, UK. With over 80 years of combined experience, our in-house product development team, work hand in hand with leading UK universities to cultivate the best product designers and help us produce garments that offer high performance and superior protection.

MADE BY RST - We are proud to handcraft the garments we design in our own factories and honoured to support thousands of skilled jobs. From buttons, zips and threads through to the leather grain and innovative reflective textiles, we specify and source the best materials and can trace every step of production to ensure the highest level of quality.

REAL WORLD READY - Our products are tested to extremes, across global climates and terrains and use our factory riders to inform us on how our designs fair to ultimately improve our product development.

ADVENTURE-X JACKET & JEAN - Mick Extance, Dakar legend and friend of RST, specifically selected the new RST Adventure-X textile jacket and jean to protect him against the elements as he raced the 2020 DAKAR RALLY in Saudi Arabia. The kit was put through its paces over the 4900 MILES (7900KM) of the Dakar.

V4.1 AIRBAG SUIT - Kenny Foray (FSBK) was testing the new RST V4.1 Airbag Suit when he high sided at the Misano Moto-E in September 2019. At a crash speed of 93 KM/HR and 27.5 G, the suit did its job: the airbag deployed in 22 milliseconds and the armour offered superior protection. Kenny walked away from the incident, bruised, but overall injury free.

OFFICIAL SAFETY PARTNER OF THE WORLD'S TOUGHEST ROAD RACES

Our commitment to safety can also be seen through our status as the Official Safety Partner of world-renowned road races. RST products undergo the ultimate test at these races and the feedback gained here is applied to our garments, allowing us to develop our best performing products.

YISAT RYCOREOF THINGRSTDOES

THE FUTURE OF PROTECTION IS INTEGRATED AIRBAGS.

Where possible; we integrate CE back protectors into our garments, and were the first British brand to have our entire range tested and CE certified to PREN17092.

The next step for RST is to introduce a range of garments offering enhanced rider protection.

The solution: using airbag technology.

Taking Safety to the Next Level

RST are therefore proud to be working with In&motion - experts in engineering wearable airbag systems. Just as armour is integrated into garments, we believe the best way to improve rider safety is to fully integrate In&motion's airbag technology into RST garments.

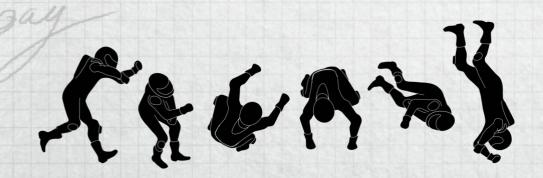

Being motorcyclists ourselves we understand what the rider needs when it comes to safety, comfort and appearance. So we leapt at the challenge of combining our skills to create RST's first range of integrated airbag garments, combining ergonomic design, feature-rich specification and high-end safety protection.

Tested by the best RST Professional Riders

Knowledge gained through countless hours of product development enables us to keep safety at the heart of our product innovation. We started development with the V4.1 airbag race suit, born on the worlds ultimate race track – the Isle of Man TT mountain course, countless miles ridden by legends such as Ian Hutchinson and Conor Cummins enabled us to verify that the design met the stringent requirements set by the RST development team, and needed by riders of this calibre.

We then let our international riding team of pilots including Kenny Foray (MotoE), Alex Lowes (WSBK) and of course RST's founder and British Super Twins champion Jonny Towers, verify the V4.1 on racetracks around the world before it was finally signed off to be made available in the 2020 RST collection.

Alongside the development of the V4.1, everything we learned about integrating In&motion's technology quickly filtered down into the jacket development programme, we selected RST's tier 1 jacket in each key category, namely the GT leather jacket, GT textile short jacket and our legendary Adventure jacket.

IT'S IN THE DETAIL

FULLY CE CERTIFIED ASSTANDARD

Our collection of fully integrated airbag garments combines comfort and discretion to offer enhanced rider protection:

RACE DEPT V4.1 AIRBAG

LEATHER 1PC SUIT

+ CE Certified Level AAA

PRO SERIES ADVENTURE-X AIRBAG

TEXTILE JACKET

+ CE Certified Level AA

GT LEATHER AIRBAG

LEATHER JACKET

+ CE Certified Level AAA

GT TEXTILE AIRBAG

TEXTILE JACKET

+ CE Certified Level A

Fully CE Certified garment, armour and airbag.

COMPREHENSIVE

- + One box. Multiple riding opportunities
- + Wireless
- + No cables or sensors required on the bike

ULTIMATE PERFORMANCE

- + Ultrafast detection and inflation < 60ms
- + Intelligent upgradable technology
- + Battery power: 20hrs with auto standby
- + Protects thorax, abdomen, spine, neck and collarbone
- + Fully CE Certified garment, armour and airbag
- + Integrated CE Certified back protector

EASY TO USE

- + Wireless
- + Electronic airbag detection system has embedded algorithms to activate the vest so there is no risk of this going off unless there is a crash
- + Two algorithms: street and race
- + Continuous improvement- rider data is automatically sent to the In&motion servers to enrich the algorithm

COMFORTABLE TO WEAR

- + Ergonomic design garments designed with the airbag in mind
- + Integrated airbag system
- + Breathable 3D mesh ensures comfort in use

HOW DOES IT WORK?

THE INTELLIGENT AIRBAG SYSTEM IS BASED ON AN EVOLVING PHILOSOPHY:

DETECT - Thanks to embedded algorithms the smart In&box system analyses the biker's moves 1000 times a second to detect a fall

PROTECT - In less than 33ms (detection) and 22 ms (inflation), the airbag cushion is inflated to protect the most sensitive body areas

PERFECT - The In&motion software collects all data to constantly improve it's algorithm, offering even better customised protection

- + Integrated CE certified Level 1 back protector (according to EN 1621-2 standard)
- + Reusable After inflation deployment, the inflator can be changed by the user (up to 3 times)
- + Body areas protected: Spine, neck, thorax, abdomen

HOW DO YOU GET IT?

SIMPLY:

- 1. BUY AN RST INTEGRATED AIRBAG GARMENT FROM AN **APPROVED** RST AIRBAG DEALER
- 2. RECEIVE THE **IN&MOTION BOX** FROM YOUR DEALER

PRO SERIES ADVENTURE-X AIRBAG

TEXTILE JACKET

Adventure riding is about tackling any and every environment you can imagine. From the depths of winter in the Scottish Highlands to riding across the Sahara in the middle of the summer, the Adventure-X is one jacket that can go with you on the entire journey. RST's innovative removable X-Liner combines waterproof SinAqua protection with a built-in thermal layer, is quick and easy to remove and has been designed to be accommodated in the rear pocket when not in use.

The large vents all over the jacket enable a huge airflow when all fully open, and a water bladder pocket (bladder available separately) can keep you hydrated when the going gets tough! Add in class leading safety features of Level 2 armour, external shoulder sliders and of course In&motion integrated airbag technology and you have the ultimate riding jacket!

Non airbag version also available - See page 68.

GT LEATHER AIRBAG

Using the highest quality drum dyed aniline cowhide, the GT takes leather jacket ergonomics and comfort to another level. Comfort is further enhanced with panel-in-panel perforation and a 3D mesh lining ensures a full flow of air around the entire rider's body.

Exceeding the AAA CE rating, Level 2 armour is combined with subtle external shoulder sliders and the integrated In&motion Airbag to offer the highest possible level of rider safety. Added to this masterful tailoring, the GT will be the only leather jacket you ever and

GT AIRBAG

Taking its styling cues from its sister leather jacket, the GT textile airbag jacket has a specification list that cannot be beaten. The HTC abrasion resistant fabric offers a level of comfort and suppleness that is really noticeable when riding, a SinAqua waterproof membrane keeps you dry, adjustable vents keep you cool when required and a full length removable thermal lining keeps the warmth in on those cold days.

Zip together with the GT textile jean for the ultimate sports touring textile jacket. If all that wasn't enough add in the safety of Level 2 armour and an In&motion integrated Airbag and every box is ticked!

Non airbag version also available - See page 80.

TRACTECH EVO-R

New and improved, the TracTech Evo-R is a jacket and jean version of the one piece suit. The jacket and jean are made from perforated cowhide leather cut into an aggressive, sporty fit. This combined with the 3D mesh liner offers supreme ventilation and comfort when worn. The combo has a CE Level AAA certification, achieved from the inclusion of CE Level 2 back, shoulder, elbow, hip and knee armour. The TPU shoulder and knee cups offer further protection.

TRACTECH EVO 4

EATHER JACKET AND JEAN

The TracTech Evo 4 is a jacket and jean version of the one piece suit. Made from Cowhide leather, Samtex with stretch leather motion panels and fixed mesh lining, the jacket and jean has been cut with a less aggressive stance; as such, it is more comfortable to walk around in. Additionally it offers a superb level of protection: CE certified to Level AAA and CE Level 1 armour fitted in the back, shoulder, knee and elbow and CE level 2 hip armour. The removable quilted thermal gilet further adds to the versatility of this jacket.

The jacket can be easily attached to any pair of RST jeans such as the TracTech Evo 4 leather jean via the 360° connection zip - The TracTech Evo 4 is a great sports riding combination.

ISLE OF MAN TT BRANDISH

I FATHER JACKET

The Brandish leather jacket takes its name from the long winding corner at the 35th milestone of the renowned Isle Of Man TT road racing circuit.

The jacket has a vintage style and would perfectly suit a wide range of classic bikes. Made from cowhide leather, this jacket offers the best in abrasion resistance and features CE Level 1 shoulder and elbow armour to cushion any impacts. Moreover, the quilted diamond stitched detailing on the shoulders and lower arms combined with the two-tone leather on the chest further supports the retro aesthetic. Other great features include the soft and supple reverse leather collar and rolled leather cuffs which help reduce irritation around these areas when riding over longer distances.

This is a the ideal jacket for the super fans of the legendary TT race course.

The Pro Series Adventure-X jacket and jean is a must have for all adventure riding. Upgraded for 2020 with input from legendary Dakar Rally finisher Mick Extance, (who knows what is needed to make the best motorcycling jackets for adventure riding!)

This is a high specification jacket and jean: It's double layered. Made from MaxTex – a lightweight high denier synthetic material that offers great protection and is comfortable to wear. Additionally, a Ballistic textile is overlaid over key impact areas along with the triple stitching using a coated bonded nylon thread offers increased abrasion resistance.

A new addition to the jacket and jean is the new innovative and removable X-Liner – a singular

lightweight lining which features the quilted thermal liner and the SinAqua waterproof membrane combined together. This can be removed easily and stored in the rear jacket map pocket. This along with the superior levels of ventilation in the form of the fixed comfort mesh lining and multiple chest, arm, rear and leg vents ensure superb levels of air flow in and out of the jacket and jean, keeping you cool as you ride.

Add in the class leading armour; it has a CE certification rating of AA and CE Level 2 back protector and shoulder, elbow and knee armour with a pocket for the hip armour along with the TPU shoulder cups and you have a garment ready to protect in the event of any impact. And if that wasn't enough, hardwearing MAX zips are

used throughout the jacket and there are stretch motion panels and adjustment points on the arm and waist to offer the most comfortable fit.

From huge ventilation points to CE armour, the RST Adventure-X jacket and jean combo is everything you need a textile adventure motorbike jacket to be and more!

Non airbag version also available - See page 68.

THE X-RAID **JACKET & JEAN** HAS A REMOVABLE THERMAL LINING FOR RIDING IN WARMER CLIMATES - IDEAL FOR LONG DAYS IN OR OUT OF THE SADDLE.

Don't let its understated design fool you as the X-Raid is designed to keep you warm, dry and protected! It's made from a hardwearing Ripstop material and features Ballistic on intense abrasion areas such as the shoulders and arms. Additionally, the X-Raid features a fixed SinAqua waterproof and breathable lining and a removable thermal lining alongside front and back vents for optimum comfort and versatility.

There are multiple pockets on the jacket and jean for storing the items that you need when out on the road including a rear removable map pocket and small chest pockets at the front, ideal for storing bike keys great for bikes with keyless ignition. Particularly useful is the military inspired molle straps which can easily hold a cargo pouch (sold separately). The jacket also features an area to add a hook & loop patch. Three patches are included with the X-Raid jacket: a Union Jack patch, an RST patch and a blank patch for adding your own message.

Adding to all of this, are the waist and arm adjusters and a 360° connection zipper for a secure and tailored fit – the X-Raid is essential kit for all adventure riding!

PRO SERIES PATHFINDER

LAMINATED JACKET AND JEAN

Pathfinder is RST's first fully laminated touring jacket and jean, providing superior waterproofing, comfort and versatility to compliment the protective qualities of the garment.

Specially constructed from LX3 fabric, the garment features a three-layer SinAqua Pro waterproof and breathable membrane which is bonded to the outer material, ensuring water is repelled from the jacket. The SinAqua Pro membrane boasts a waterproof rating of over 10,000mm/ cm² (Hydrostatic Head) for superior levels of water repellence, breathability and high performance. This means the fabric could hold a 1cm² column of water that is 15 metres tall before water leaks through! Additionally, the jacket has a breathability rating 10,000g/m²/24h. This means 10,000 grams of moisture vapor can pass through a square metre of the fabric over a 24-hour period without it impacting comfort levels- making it the perfect partner for wet weather riding. The double and triple stitching on the jacket is finished with taped seams which further repels water.

Protection and comfort rest at the heart of this garment: It is CE certified to Level A and features a CE Level 2 back protector, shoulder, elbow armour and CE Level 1 knee armour along with the Ballistic textile overlay abrasion resistance at key impact

A fixed mesh comfort lining, removable quilted thermal lining and multiple intake and exhaust vents support multiple riding conditions keeping you warm or well ventilated as required. The elasticated throat coat reduces the windchill and is easily removable for dryer conditions. The Pathfinder also features a wide range of adjusters to achieve a perfect fit and features a 360° connection zipper for seamless connectivity with other RST garments. And if that was not enough, reflex piping and reflective print detail on the garment support visibility when riding especially in poor light conditions or when riding in wet weather.

All in all, Pathfinder is by far one of the most waterproof and versatile jacket and jeans on the market- a smart choice!

PRO SERIES VENTILATOR-X

TEXTILE JACKET AND JEAN

Our lightest sports touring jacket, the Ventilator-X has been redesigned to offer superior levels of ventilation. Constructed with a hardwearing abrasion resistant MaxTex outer with a Ballistic textile overlay in key impact areas, the RST Ventilator-X jacket is a robust yet lightweight textile motorcycle jacket with a single ambition in mind - to keep you cool!

The large K300 mesh panels at the front and rear of the jacket and jean enable superior levels of airflow throughout. In addition to this, the innovative RST X-Liner- a removable quilted thermal liner bonded with a waterproof SinAqua Pro Membrane - offers warmth and waterproofing as and when required and enables you to alternate from a ventilated summer garment to an insulated winter garment in minutes!

This lightweight jacket and jean are still brimming with protection. Certified to CE Level A, the jacket features a CE Level 2 back protector, Level 1 shoulder and elbow armour whilst the jean features CE Level 1 knee armour and a pocket for the hip armour. Additionally, the reflex reflective print offers visibility when riding in poor light conditions. Added to this is the 360° connection zipper for seamless connection to other RST garments as well as arm and waist adjusters for a contoured fit and to top it off, the neoprene comfort collar helps reduce irritation when the jacket is closed all the way to the top.

With huge amounts of airflow throughout the garment, the Ventilator-X is the ideal protective apparel for summer riding.

GT AIRBAG TEXTILE JACKET

Taking its styling cues from its sister leather jacket, the GT textile airbag jacket has a specification list that cannot be beaten. The HTC abrasion resistant fabric offers a level of comfort and suppleness that is really noticeable when riding, a SinAqua waterproof membrane keeps you dry, adjustable vents keep you cool when required and a full length removable thermal lining keeps the warmth in on those cold days.

Zip together with the GT textile jean for the ultimate sports touring textile jacket. If all that wasn't enough add in the safety of Level 2 armour and an In&motion integrated airbag and every box is ticked!

Non airbag version also available - See page 80.

The GT textile jacket and jean is a road focussed garment with a subtle sporty feel and shares much of the same functionality of their leather twin, with additional features to support a more comfortable ride.

CE certified to Level A, the garments come with a CE certified Level 2 back protector, shoulder, elbow and knee armour and pocket for the hip armour. This along with key impact areas reinforced with Ballistic and the subtle matte TPU shoulder cups, means that this jacket and jean offer excellent levels of protection.

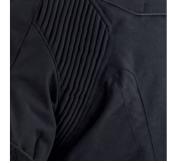

The fixed SinAqua waterproof lining and removable thermal quilted lining in both garments means that you stay fresh, dry and warm – a welcome feature offering protection against all the elements. The quilted thermal liner can be easily removed leaving you with a lightweight summer motorcycle jacket.

Added to this are the waist and arm adjusters and stretch panels which allow free range of movement and a more contoured fit aswell as the 360° connection zip in the jacket which easily attaches to the GT textile jean or any compatible RST jean.

Airbag version also available - See page 78.

TRACTECH EVO-R

TEXTILE JACKET

This a sport-focused textile jacket which features a racing hump improving the airflow over the back of the jacket which prevents the jacket from puffing out when riding.

Made from lightweight MaxTex, the key impact areas are overlaid with Ballistic which offer superior levels of abrasion resistance. Additionally, the jacket features a SinAqua waterproof lining to keep you dry. This along with the 3D mesh lining and intake vents are designed to offer a comfortable ride.

The TracTech Evo-R jacket features armour throughout including TPU shoulder sliders and internal armour in the form of CE approved Level 2 elbow and shoulder armour as well as a CE approved Level 2 back protector as standard.

MAVERICK TEXTUE LACKET AND JEAN

Maverick by name; a maverick by nature.

Made from a hardwearing MaxTex ballistic outer construction, the jacket and jean are CE Certified to Level A, with CE certified level 1 back protector, shoulder allow and knee armour are all included as

to Level A, with CE certified level 1 back protector, shoulder, elbow and knee armour are all included as standard offering impact resistance in the event of an incident. An additional safety feature is the reflex reflective print which offer enhanced visibility in poor weather conditions.

The interchangeable liner system is a key characteristic of the RST Maverick jacket and jean, offering fantastic versatility when riding. The SinAqua waterproof membrane and quilted thermal liners can be utilised in a variety of ways; jacket with no liners, jacket + thermal liner, jacket with waterproof liner or jacket with both thermal and waterproof linings, so you can take on any weather condition on your ride.

Stretch panels, arm and waist adjusters all support a more comfortable contoured fit. Additional supporting features include MAX zippers, a 360° connection zipper for connecting to any RST garment and multi-pocketed intake and exhaust ventilation areas which can be opened as required to channel airflow in, around and out of the jacket and jean.

All this and we are yet to talk about storage - the multiple internal and outer pockets are ideal for storing valuables such as phones, wallets and keys. Not to mention the fixed rear large map pocket for storing maps and other large documents. The Maverick textile jacket and jean is simply great kit offering touring riders the ability to go anywhere come rain or shine.

ATLAS

TEXTILE JACKET AND JEAN

Atlas is the ideal textile touring or commuter jacket and jean and hosts a series of smart features to support a smoother ride.

Made from MaxTex, the jacket offers fantastic abrasion resistance with additional protection offered from the CE certified Level 1 shoulder, elbow and knee armour and the reflex reflective printed panels designed to enhance your visibility when riding in poor weather conditions.

A fixed mesh comfort lining* offers great levels of ventilation. This along with the fixed SinAqua waterproof membrane and removable thermal linings providing an additional layer of waterproofing and insulation when riding in cooler, wetter weather.

MAX zippers, a 360° connection zipper, stretch panels and arm and waist adjusters are featured on the jacket and jean as standard. These along with the large intake and exhaust ventilation points, which direct air through and out of the garment, all offer superior levels of comfort and a secure, contoured fit.

PILOT

Pilot is the perfect jacket for beginner bikers and seasoned riders alike offering great value for money.

The Pilot jacket is made from a lightweight but hardwearing MaxTex fabric. With CE Level 1 shoulder and elbow armour and a pocket for a back protector, this jacket offers optimum levels of protection. The fixed mesh comfort lining, fixed SinAqua waterproof membrane and a removable thermal gilet make this a truly versatile jacket keeping you cool, dry and insulated as required.

Additional features include the robust MAX zips used on the jacket along with the 360° connection zipper which allows you to connect the jacket to any compatible RST jean and waist and arm adjusters to offer a tailored fit.

Pilot is simply a great versatile everyday motorcycle jacket.

RIDER DARK

TEXTILE JACKET

The Rider Dark jacket is an ideal textile motorcycle jacket brimming with functionality and versatility, perfect for beginner bikers and seasoned riders alike.

It's made from a robust and lightweight MaxTex fabric without compromising on safety. Fitted with CE certified Level 1 shoulder and elbow armour, this jacket offers great levels of protection and abrasion resistance.

With its subtle branding, the jacket features a fixed mesh lining offering a fresh, comfortable feel whilst riding. Additionally, the fixed SinAqua waterproof membrane minimises water entry into the jacket, whilst the fixed thermal gilet within the RST Rider Dark jacket, provides an additional layer of insulation when riding in cooler weather. Together with the hardwearing MAX zips, 360° connection zip and zipped outer storage pockets, Rider Dark is a great motorcycle jacket for daily commuting.

CHELSEA3/4

Fashion styling meets full motorcycle CE certified protection with the Chelsea 3/4 length jacket, which is part of RST's Metropolitan Range - designed for the urban city commuter.

The jacket may look casual but is anything but. CE Certified to Level A, this scooter jacket features CE level 1 shoulder and elbow armour and comes with a pocket for the back protector. It's made from a hardwearing but lightweight HTC fabric and reinforced by a durable MaxTex textile at key impact areas.

Added to this are the fixed mesh lining which aids air flow through the jacket and the SinAqua waterproof, breathable lining and removable quilted thermal lining which offers protection from the elements. The jacket also features a storm flap to stop water from penetrating the jacket, stopping water from penetrating through the zipper and wetting the layers beneath. The three-quarter zip enables the jacket to be left open slightly, offering free range of movement and comfort when you are on the saddle. The jacket also features a removable hood, which is adjustable using the drawstrings, allowing a more tailored fit.

Overall, ultra-high quality fabrics both internally and externally, not only give the jacket a high end styling but the protection to match.

FULL MOTORCYCLE CE PROTECTION MEETS CITY FASHION IN THE CHELSEA ¾ JACKET

SHOREDITCH

Part of the new RST Metropolitan collection, the lightweight and waterproof Shoreditch jacket is equally trendy as it is protective -ideal for city riders.

CE Certified to Level A, this jacket features CE level 1 shoulder and elbow armour and comes with a pocket for the back protector. It's made from a hardwearing but lightweight CRC fabric which offers added stretch and comfort and is reinforced by a durable MaxTex textile at key impact areas. The protection is further enhanced through the reflective detailing found at the cuffs which aid visibility when traveling in conditions where visibility is reduced.

Added to this is the fixed mesh lining which aids air flow through the jacket and the SinAqua waterproof, breathable lining and removable quilted thermal lining offering protection from the elements. This lining is easily removable to offer a lightweight summer motorcycle jacket. The small zipped gusset on the jacket helps expand the waist, offering free range of movement and comfort when mounting the bike and whilst on the saddle. The comfort levels are extended through the adjustable waist and cuffs which support a more tailored fit.

AERO TEXTILE JACKET

Part of the Metropolitan collection, the Aero jacket is without a doubt one of the most lightweight and well vented summer motorcycle jackets on the market. The HTC fabric offers a highly abrasion resistant coverage whilst large K300 mesh panels at the front and back of the jacket offer incredible ventilation and airflow in. through and out of the jacket.

The RST Aero jacket is CE Certified to Level A and features CE level 1 shoulder and elbow armour as standard along with a pocket for the back protector. These features along with the reflective reflex piping offer a good level of protection for such a lightweight jacket.

The jacket features multiple pockets that can be used for storing items, has waist and arm adjusters to contour the jacket to suit your body shape and also features a 360° connection zip to affix to all compatible RST jeans. This is a great aerodynamic jacket, ideal for city commuters.

BRIXTON

The Brixton jacket oozes cool but comes with CE level protection as standard.

Made from a heavy duty and robust HD wax cotton and reinforced with DuPont™ Kevlar®, the quilted stitched detailing enhances the vintage feel of the iacket.

The jacket comes with CE Level 1 Hexa shoulder and elbow armour and a pocket for the back protector. Additionally, the jacket has a removable quilted thermal lining, to keep you warm whilst riding in cooler climates, and has ventilation points at the chest and rear of the jacket to support airflow in, through and out of the jacket for optimum comfort whilst riding.

The Brixton can be tailored to suit your body via the waist and cuff adjusters. These features along with the stretch panelling around the elbows offer great freedom of movement and a more relaxing ride.

REINFORCED CE HEAVY DUTY

TEXTILE JACKET

Reinforced with DuPont™ Kevlar®, this shirt offers armour and abrasion resistance in a more casual styled textile motorcycle shirt.

Fully CE approved to Level A, the Reinforced Heavy Duty Shirt is a hard wearing and durable motorcycle shirt for use on and off the bike. The shirt features CE level 2 shoulder and elbow armour as standard and a pocket for a back protector. The jacket has a protective Kevlar®barrier throughout for abrasion resistance when you need it most. Additionally, it is made from Cordura cotton which ultimately makes this a lightweight and comfortable shirt.

Zipped cuffs and the popper closure system on the $\,$ cuffs, outer pockets on the shirt, offer both increased ventilation as required and ensures the shirt will not pop open in the event of an incident.

TRACTECH EVO III SPORT

Designed for comfort and safety, the TracTech Evo III boot has been developed with countless hours on the

The boot is CE certified to level 2/2/1 which is one of the highest levels of protection and comes with a moulded TPU heel cockpit and TPU shin armour as standard offering further impact protection.

The size and position of the gear pad is variable based on the size of the boot so its in the right place and this protects your boots from the wear of the gear lever.

The nonslip multi-density sole and perforated leather ventilation makes for a comfortable boot both inside and out. This along with the zip / hook & loop closure system means that the boot can be put on and taken off with minimal fuss.

TRACTECH EVO III SHORT

The TracTech Evo III Short boot packs in all the same great features that we've come to love from the RST TracTech Evo III boot in a shorter boot. The ankle is cut down particularly at the rear of the motorcycle boots, allowing for a free range of movement when changing gear on the bike and for unrestricted movement when walking around off the bike. It can be comfortably worn with RST textile or Reinforced jeans.

The boot is CE certified to level 1/2/1 and comes with a moulded TPU heel and ankle protectors offering further impact protection. Additionally, the gear change protector defends your boots from the wear of the gear lever.

The nonslip multi-density sole and perforated leather ventilation both makes for a comfortable boot both inside and out. This along with the $\mbox{zip}\,/\,\mbox{hook}$ & loop closure system means that the boot can be put on and taken off with minimal fuss.

TRACTECH EVO R

The TracTech Evo R glove is the latest incarnation of our superior factory racing glove. It's been designed with a range of features which keep your hands safe, comfortable and that offer the maximum level of protection.

Made with kangaroo leather, the glove features an aramid lining which runs through the main impact areas and the leather is double layered on the palm and first two fingers, for added durability as well as offering protection in high impact areas.

The glove is brimming with protection. It is CE Certified to Level 1 KP and features carbon and bio-elastane knuckle protectors, conjoined little fingers and bio-elastane thumb joint protectors. Further protection $% \left(\mathbf{r}_{1}\right) =\mathbf{r}_{1}$ comes in the form of the TPU palm slider, which allows the hand to slide across the road, preventing body weight to transfer to the hand which could cause breaks and/

Additionally, the out-stitched fingers, pre-curved fingers and stretch panels help enhance comfort and reduces muscle fatigue when gripping the handle bars, leading to a more relaxing ride.

GLOSSARY

THIS GLOSARY AIMS TO PROVIDE A BRIEF **EXPLANATION OF** SOME OF THE MAIN MATERIALS RST USE IN OUR GARMENTS.

SINAQUA PRO

A ultra-durable three-layer waterproof and breathable membrane, offering exceptional breathability 11500 g/m2/24h of and a waterproof rating of over 15000mm/cm3.

SINAQUA

A three-layer durable waterproof and breathable membrane offering breathability of 5000 g/m2/24h of and a waterproof rating of over 10000mm/ cm3.

HIPORA®

A three-layer micro-porous silicone coated waterproof and breathable membrane used in boots and gloves.

SYMPATEX®

A highly breathable 4-layer waterproof membrane used in footwear. Footwear with Sympatex® delivers excellent performance, protection and wear comfort in all weather conditions.

KANGAROO LEATHER

Kangaroo leather has up to 10 times the tensile compared to standard Cowhide, enabling a lower thickness to be used. These guarantees excellent abrasion and tear strength whilst offering maximum comfort and enhanced ergonomics.

PREMIUM DRUM TANNED COWHIDE

The highest quality hide, drummed dyed and treated with special silicones, only full-grain leather is used. This leather offers superior abrasion and tear resistance and is super-soft and supple.

COWHIDE

RST only use full grain Cowhide that offers excellent abrasion and tear strength. Each hide is visually inspected and batch tested before being selected for use by one of our in-house craftsmen.

ANILINE WAXED COWHIDE

This leather is drum dyed with special aniline dyes that permeate the entire hide. It is then finished with a special wax treatment that gives a premium fashion look whilst retaining high levels of abrasion and tear strength.

MICROFIBRE

Synthetic leather, ideally suited for boots. Easily shaped to aid construction, water repellant and resistant to stretching.

BALLISTIC

A densely woven, heavy weight synthetic fabric using fine fibers that offers extreme abrasion resistance, tear and cut strength.

MAXTEX

MaxTex is a high denier synthetic fabric that offers a good balance of protection and ergonomics.

HTC

HTC is a high tenacity Nylon fabric that combines outstanding levels of abrasion and tear strength and is highly supple and offers excellent levels

RIPSTOP

Ripstop Nylon is extremely tough. Ideal for use in garments that will be worn in the toughest conditions.

A special woven Nylon/Poly mix that has a soft and supple hand feel. VX-R is highly protective and enables enhanced levels of tailoring of garments where this fabric is used.

A lighter weight version of our VX-R fabric.

A specially woven Nylon/Poly mix that has up-to a 6% stretch for enhanced comfort and ergonomics.

K-492 MESH

This mesh fabric gives a high level of abrasion and tear strength whilst allowing a huge volume of airflow, used in low risk zones combined with other main fabrics.

WAX COTTON

Synthetic wax is pre-impregnated into the cotton for a modern take on the tradition wax look. This fabric offers excellent protective qualities.

ARAMID

A Para-Aramidic fibre that offers high levels of abrasion/tear/cut and heat resistance. Used as a secondary layer in garments like Denim jeans, shirts, race suits and gloves.

KEVLAR®

DuPont™ Kevlar® has a unique combination of high strength, high modulus, toughness and thermal stability. It was developed for demanding industrial and advanced-technology applications.

Kevlar® has a unique combination of high strength, high modulus, toughness and thermal stability. It was developed for demanding industrial and advanced-technology applications.

AMARA

Soft suede-like microfibre noted for its durability.

SIZING

CHEST: Measure around the fullest part under the armpits, keep tape horizontal. **WAIST**: Measure around your waist, where you usually place your belt when wearing everyday trousers.

MEN: IF YOU CURRENTLY WEAR A SIZE 36 JEAN, PLEASE ORDER AN RST SIZE 36. LADIES: IF YOU CURRENTLY WEAR A SIZE 12 JEAN, PLEASE ORDER AN RST SIZE 12.

 $Please \ note the sizing \ mirrors \ sizes from \ global \ clothing \ brandFor \ additional \ sizing \ information, \ please \ email \ customer \ support \ drst-moto.com \ or \ visit \ your \ local \ RST \ dealer.$
