OFF-ROAD CLUTCH KITS

DPK Clutch Kits have been designed to provide extended service life coupled with super smooth power delivery.

DESIGNED TO OUTPERFORM ANY OEM OR AFTERMARKET OFF-ROAD CLUTCH.

Each kit includes friction plates, steel drive plates and clutch springs.

DP friction plates are ready to race with no need to soak in oil. They are more durable than original equipment and the high heat friction material provides fade-free performance.

DH PRO

- Ultra-high performance sintered metal disc brake pads.
- Engineered for out-and-out stopping power.

XC ECO

- Ideal for XC and trail riders wanting good all-round performance and value for money, while providing excellent service life.

Processing at -195°C (-319°F) changes the structure of the metal giving a closer molecular bond. This increases wear resistance and gives a longer service life and creates a more stable material with fewer inherent stress points. You can expect a service life up to 3x that of a non-treated rotor and one that copes much better with the hot/cold heat cycle associated with disc brakes.

IMPORTANT NOTES

Street Bikes

Brake pads should be fitted by experienced mechanics in accordance with the motorcycle manufacturer's service manual. New pads require bedding-in (80% contact area) before maximum performance is achieved. This may take up to 150 miles (250kms). Until then use brakes gently, only braking severely in an emergency. Replace pads when thickness of material reaches 2mm.

Aftermarket Discs/Rotors

DP Brakes have been extensively developed and tested for use with original equipment discs/rotors. Advice should be obtained in writing from the company if alternative discs/rotors are intended to be used.

Fitness For Purpose

The DP brake pads listed in this fitments guide are warranted to be of merchantable quality and fit for the purpose they are supplied i.e. motor vehicles as described herein. Advice should be obtained in writing from the company if alternative uses are proposed for the product. All DP Brakes friction material is asbestos free.
