

ContiRoad *ATTACK 2*

Our Masterpiece in Sport-Touring.

Revolutionary new-to-the-market technologies to realize Continental's new level of grip, safety and dynamics in the radial sport-touring segment.

- TractionSkin, the revolutionary micro-roughness of the tread optimizes the mechanical adhesion and realizes the safest, fastest running-in time in the market.
- MultiGrip Technology improves mileage by wear resistant central tread area and safety in curves by higher grip in shoulder area.*
- Dynamic-Ride-Technology improves handling and control of your bike by using patented steel cord construction and a unique contour.*
- Original equipment BMW.

MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
