

ContiRoad *ATTACK* 2 EVO

The ContiRoadAttack 2 EVO redefines the limits in Touring Sport.

- More sophisticated tread pattern design with pronounced drainage function.
- Perceptible improvement in wet grip properties thanks to newly developed compound.
- Tried-and-tested multi-grip technology for extended mileage and maximum grip in extreme banking maneuvers, coupled with exemplary overall mileage performance thanks to markedly deeper tread.
- TractionSkin makes for an extremely safe and short breaking-in-period. Making this possible are a revolutionary bufed tire surface and a specially coated tire mold that gets by without separating agents.
- A high-level response to the safety and comfort demands of touring bikes.
- Outstanding handling properties, singled out for honors many times over.

MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

RainGrip

New „Wet Grip“ compound for superior wet grip and higher mileage.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
