

# ContiSport *ATTACK 2*

## Advanced high performance Supersport tire for street usage.

- Extraordinary light and precise handling with outstanding grip and curve stability.
- Exceptional control of riding performance and optimal feedback in the limit range.
- Special construction on the front and rear wheel for higher stability and feedback when braking into and accelerating out of curves.
- MultiGrip Technology ensures high mileage and maximum grip in extreme lean angles.
- TractionSkin provides an extremely safe and short tire break-in.
- Original equipment on the BMW S 1000 RR and KTM RC8 R.

C = Is primarily used on BMW models  
K = Is primarily used on Kawasaki models

### MultiGrip-Technology

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process.

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

### TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

### 0° steel-belted construction

0° steel-belted construction guarantees excellent stability at high speeds.

### Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
