YOUR BIKE

HIGHSIDER

YOUR TICKET INTO THE FUTURE THE VEHICLE LIGHTING

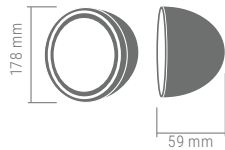

The integrated LED daytime running light improves visibility during the day, while the innovative cornering light activates the additional lighting when leaning. The headlight adapts to different lighting conditions by simply switching to low beam - with a short press of the headlight flasher button. Available in black with tinted or chrome with clear glass, the headlight combines safety with an impressive design. E-approved and easy to fit - experience the future of motorcycle lighting with HIGHSIDER pro. See and be seen!

#1108637001

TYPE 8 Headlights

Insert

- **Reflector:** high-quality ellipsoidal lenses for optimum light distribution
- **Light functions:** Low beam, high beam, position light, daytime running light, cornering light
